Mr. Merriam's story of "All is well" and the burial service at sea coming up from Capetown. The Capt. read the service and timed it so that just at the close the eight bells struck. All was silent. The engines had been stopped. The sea was still. The body slipped down into the sea and back in the silence from the outlook to the bridge came the clear voice "All is well"

Mr. Zerbing who has lived for ten years off and on up the Amazon. for three years in Manaos, says there are 6000 000 Indians in Brazil. They have no written language. Have many dialects but no common language Tupy. pronounced Two-pee. How a crude nature religion, worshipping sun & moon & stars & trees but have no idols & images. On moonlight night coming down an inland river he saw 150 Indians kneeling down on a white sandy beach & worshipping the moon. Was

deeply impressed by it. Dr Ellis then[illegible] religious for reports to Brazilian Government. They have no abstract words - only names of things. Of the Manaos - tops of 45000 people very mixed blood, Indian migrations. many Italians & Portuguese. Annual temp 35° Centigrade are the year, day & night, never any breeze. Belem Para ought be a better place. The population of the state of the Amazon is 250000 but this does not include Indians who no doubt number. Think these Indians moral - no polygamy. No priests - the clergy being both priests & judges. These Indians other half. No R.C. Church doing absolutely nothing for them except among the 1500 or so in the Capital. Prevalence near Para where the R.C. have a good church. No Ch. purely mercenary. Case exact a priest die who wanted a man up in the northern country for 250 lb of rubber. Men when he found that the man did not have the rubber though he said he had it in the back ground. Boy at Obidos

the priest came back down stream, the priest be-
fore the two natives assembled the warriors & they
the man he roared & he beat his breast the
common. As his army beat the man had the rubber
& the priest performed the ceremony, as the
priests of them are in training. Known as Obo
in count $1000000. having in rubber.

D. Then days population of is 55 a 60 (6)
and that two are 200 Indians, in Bogie river,
two cannibals. Yarning days, in Colombia, peaceable
people, farmers &. Then days the are two peace
priests, that they openly keep their establishments,
their women being called their nieces. As rich of
to them had 70 slaves, the last priest to them was
in Venezuela, a two, Godey, charitable man. He
was fond of women and kept a house of them
but apart from that was a true man of God!
and very clever. His story of the Bishop, the
great pilgrimage, his desire to have the preacher
in the largest church Cathedral his glasses.

He had fixed the end nearer you. I had promised to fix the frenches if he would keep the full gain that it was safe & right to wear glasses. But said the Bishop. Oh no that would be cowardice. Then I was to go to the window & looked out and saw the thousands who had come. Just with a few badges, some with thousands and said. "What you say, Doctor, look at this: Is this not business Your business. And more is better & your Pa your promise to make people to be in the next world & do make them to be in this." The Bishop agreed & then resumed a harvest.

That an man on the steamer has a good word to say of the Re churches Jesuits but the poor Brazilians are good people & devout. The rich have no morals anywhere: the men destitute of morality

Have of Pauto told me that since the age of 20. he had never denied to any pleasure in which he wished to indulge.

Harriet Jones, a married woman, with a little child dead, said much was a mere matter of chance whether he feared for he or he came down here. must a he leave his wife.

Mr Hogg a man died & was buried at Leer. I read the service.

No news say that the Spaniards to declare that the worst thing that ever happened to G. was its discovery by the Spaniard.

Have had no he has wished to quit all directing a record of Sunday meeting

Have an invitation the last Sunday Evening - Mrs S. to dine at Vicarage, out all about of and voted desperately with musician. I was the finest and most carrying tack I think I ever made.

Have had a pic nic a Byron Woods many friends.

Capt. Jas Davis, Death. Dr Barker. 2d Officer Mr. Dayton

Arrived Bahia, Thursday, May 20. Very hot & we move about - comfortable & we sit still. Like a dream. - the colors like those of stage scenery. Odd to see negroes talking Portuguese & with Spanish manners. Besides a Macedonian ship we and we reached through and left at noon for Cachoeira. Hardly rich. a town of the ruins and a long flat sand, a big dog at canoe first out - capable of hauling two dozen people. Got many upset back to the African village on the shore

Reached Cachoeira at 5. A nasty. in the ch. in the evening. Heat dog, fire coolen during the evening. Went up to the ch. fair after one seems a bar in the Eastern house. Gambling devices without amendment but as they differ in principle from our lotteries. Here are a couple in the middle act a band playing. Here can not these may steam down that the gambling devices here are more noted and the gamblers are to patronize them.

May 21. Left Dan Feliz at 6.50 — after a fair night by the Central Brazil R.R. for Alto Novo. Beautiful ride up above the fog and then over a tropical plateau.

Besides McCall Day there women who had 26 children each and in a case 3 and in the other 1 only had survived.

Reached Alto Novo at 2 after riding through a tropical plateau. Sparsely populated. Alto Novo decidedly best place. Wanted in front of one room house where a woman had two babies, an with hernia and crutches and about to have a third - a fine Spanish, typical place. Bad food, worst place not worth more than a few dollars. Three horses can be bought for 30 Mils. a hundred for that amt.

Left at 5 and rode through the clear night to Alto - a fourteen hours ride with a short rest for food and.

No water here nor trees which counteracts the trees growing not much - often overrun with green plants but too few to grow any plants.

Stopped at Mr Ewens - children against the table - Mr Ewens sister entertained in the Anglican Church. Mrs Mr E. came out - cows and buffaloes. Trees in the ch. over Mr E. on many accounts - school and teacher, Mr. Reynolds, a recent Mr E. had bright responses to hand which did not belong to him. Dread cheered me to meet them

Joy of his home. Light in the dark! The song

of the children as we came riding by bringing their
Christ. lamps. The two dear lights. The habit of a nun

Priests don't preach as a rule at all. Usually only say prayers but on feast days preach

of paid for it as the Saints. Never preach the Gospel or as Christ

Priests at Rosario and Oropos. the churches are in the centre of the towns. - around a large open Square. the Oropos unkempt and dirty. a rough wooden cross in front of the church. the bell hung apart of them. a few women & children crowded to be near. the village centre of the church. Sunday no different from other days other than feast days are days. - others and open as usual. the only tobacco caravan go by as usual. No religious observance to the day.

The Roman Doctrine in prevalence. It would be the greatest possible blessing to have Germany & the U.S. take possession of part of it. Then there is no interest at all.

And the idea of Republican institutions here is absurd. Think of that crowd in the Rosario market place. Not one out of fifty could

The sheep and ox annoyed except the oxen a little. Donkeys, Children, horses. Many very thin wood. - No Emperor with Persian sheep

Then a stone came thumping against the door back of me. Outside in the back a group of children deeply keen. The sermon 8 children very quiet & even behaved. The audience very orderly. A heavy plank about 9 ft long 1 inch and a little square of native wood were passed around. I thought of how the Israelites stopped in this way. The coming of the Church and the need of the convert - Sunday order. Life,

Moral power

May 24. Monday.

Left at ten after a long talk with McEwen who has acquired a new home in Otaho and is enlarging it. Butler to be married soon to a Brazil girl ten miles away. Says that Taylor has asked him to join the Baptists and that Taylor wanted him to take over the work.

We call says that McEwen is queering things all over. Came to know Youngher and made Protestant remarks. Later he came over to see K and we and McEwen visiting. Now has a series of lectures - good members. Wife. now wants Christ to wear the first mean to preach them.

May 25. Sunday.

Left at 9.30 for Santa Rosa, leaving the boots. Rained a little as morning. Put on rain suit and old woman came out saying "O wot power- ful God. Where is your hat" - as I had to put on at the time. She thought I was a priest

Rode 12 miles through a road in the woods - Wooded - but a house.

Then rode down at last into the Atriqua valley - the best thing we have seen since California. The river is actually running water!

Crooked legs has clothing here. The electric calif:- calico on but in in black.

In one of the books was a card of paleo medicines from Buffalo. On one side was a coloured picture - flies shoo waters away the angels.

On the road today passed a little house of the worship where a man was teaching a school. - on his own account.

At Pego we went to a Belgian house, had very nice lemonade.

A beautiful bamboo cluster by the bridge over the Ethiopia. Wonderful to be green, clear flowing water.

The woods all scrubby and destitute of character and distinction.

Clear beds & pools of dark water.

May 26 Wednesday at Porto Novo.

S. Per. opening a Sem. at Jaraguá in Pernambuco Recife. Has been running for years.

Then as now two Synods. North & South.

From Bahia 45 Mls. to Jaraguá, 225 Mls. to Campos. to buy chickens for at J. can get them back here again.

Left to Porto Novo Companion. Lucia had given the pass to her brother but he died & brother died. to brother's children & Lucia was in bed & so not have last evening. I could get eggs or that Friends or offered to them. Now as for, take the exact spelling statement of course, distances.

Jaraguá Sem. has been going on for many years Woodbridge says that he erected a dozen years ago commencing it to the Board. Not much of a Theol. School but one of worth: Henderlite & Jaraguá Professor at Recife as his boy on to teaching, Professor edits the O North Evangelico.

McCall came out in '93. went to Jaraguá in 1894 & started work. Bad opposition Had been

people attach big banner under the door. No public
lecture for ladies and another prohibit. But at
last of month this can go a more comfy.
The Jewish brethren stood and then said "Look
here we have heard your preach - began by read a
piece of law they are here to hear the Reverend us.
McCall then for any or month or vacation then
will stay for Bagé. Must have a pat both of bot us.
why book over the week

McCall age Pernambuco stood not over 5 year and
the touched about for a long, long time

There are now two pastors here - Montacha in Ba-
hia and Solomon in Cavalcanti. There are
three other fields ready for pastors - Espiritu a
nearby to - at Aracaju, Cachoeira and Palmeira.
Other cities soon be ready for more too. Can get
them from the South.

Brethren admire the Bahia Pub. preach with the
Pernambuco Order as re. the Saints. Heard that always
is ambition and it is a question between him & Edwards
to see Theirs. Their res pastor by the South Gate

anything from Pernambuco. Wrote to the papers, to the Legislative Assembly, to any men coming north for Congress. It was only by the threat to establish an independent Republic that they got rights of citizenship to have a paper. Their only protector. He has never dealt unfairly with a man. Always one proposed a rule that the American Consul never have a man for a client against a part of the Govt. to keep on there even a National Appointment & not act as a partner. I think this a good rule on the face of it! But God deliver those that it ever a device that a bad poor suit unfounded salary should be opened out so no man could be allowed to work in any of the Missions aided Churches. God deliver. except a division of the Pernambuco Pub. into Pernambuco & Amazonas so how a No. Grand hearing as Rio.

God deliver Missions praying against of Western Missions Colonies to Governments to visit the Lines & attend the Pernambuco Meeting - for experience but also for acquaintance to stand in the South.

When work is already ripe - Rabbis to care for

steer then there ever is seeing a peace.

Goodden is full of practical ideas of handling things & thinks that Q. Mat. in Japan is for the purpose to Ch. here in Bryst. the men in Ba not large minded. the old men when the men are paid in coal days & what debts they paid and over the house. the Jaymen are the good men, Bapt. &c.

the new idea was in the Ch. was a personal one between Edwards & Clowes. Edwards, a clever chap & seeing things. he says just like Goodden practical. then Clowes became clergy & then was a split & the two rival clergy split the Church.

Goodden, Rider & Nicholl as Lapsers as the Ministers eyes as to formation of unity between Bohemia & Moravian protestants, that the Prot. of Bohemia with its own many hundred years was free more of the Moravian principles.

I fear the practicalizing parts of Goodden. how he is at it still. this scheme of uniting the Moravian protestants in Bohemia & the South.

Estevam, Manoel + Rodolfo + Gaetan Daniel -
are available a crie town bo. Rodolfo married
+ likes by the boys people. Boys like Manoel. Loved
like Stephen Cur for his being a Negro. The first
three are at Ponte Nova. Rodolfo wife is chaperon.
at P. N. Pereira is the station

The three men formerly committed to to working harmoniously with Pereira Neto. The two object to hostility towards the Local. Gaetan says "yes."

Gaetan says Manoel make climbed up the post door - stick door - and as he put his hand on it the snake climb at his hand. It was between the edge of the door + the jamb.

After the boys above the next one in right for the morning are 5th yr. Gy. The two of four above first three finish at Ponte Nova + then go down to Bahia to study a year with Mascarenhas. Gaetan now teaching them theology. Manoel + Pereira crie teach them pastoral Theol. Homiletics. The other boys in right crie be three here in two years + then crie have three years in Pernambuco.

School. Girls were paid $4 per month to vacation there for. The girls will have vacations lasting over 2 days & 4 girls for each vacation. To care for the place. The students who are appointed must agree to give up the vacation out of town.

As to the year between School here and Leon. Excuse. - There is to be provision made there for advanced Portuguese teaching. The Parte Novo School is not now trying to teach adequate Portuguese.

Waddell says that scrubbing floors is disgraceful work and the idea was overcome in School by Miss. Waddell scrubbing her own floor. Then one of the teachers who was daughter of a high official deemed her ... allowed another girl to do scrubbing to help her as a great favor; then the others did the same thing for themselves.

Waddell says that McEwen got mad from a Priest when the priest said "But you are a Protestant." "Oh," said McE. "God forbid." Has got money on the strength of his work being American School work but not Protestant.

Taylor used to go to Cannavieiras but the work was finished & he told Waddow that he could go there & welcome. When the trade there decreased he was angry. Sent a man down there and tried to take the trade away. Even time was sought to get men and to wreck & cause to Orobo.

Mr Evans claims that he is head of all the American Schools in this country & raises money in that way and is improving the good name of our work.

We should notify him (1) that he is not to insult the Baptists (2) that he is to stop connecting us with him and doing any relationship to our work & schools. (3) let Mr Matthews publish a note in the Bahia paper stating that he has no connection with the Presbyterian Mission & people. (4) We should not forbid him use to cut off his independent influence.

Baptist began work & stopped it got a whole. In Vol Mrs Taylor at Bahia - Jackson at the interior at Santa Rita. Mr C. thinks that if they took over Mr E. at Orobo they would soon stop him. He

pop of Opobo is about 1000.

Bqbists have a work, including theol. Sem at Pernambuco

W. says that in the official publicatn. Mission Vocabn was an official Sem. Report showing that they had two theol. students after them had two pre preparatory, two pastors giving assistance, one half proprietor. and two preparatory students with a teacher of their own

Edwards. Manoel as the boys who were at Lavras. They were there 2 years + and came back here a year ago. Mission sent them down & had Common pleading that they were to stay as long as money held out & that until the people in the South would want to care them and keep them. These are the boys referred to in the So. Mission action in their last minutes.

W. says that Edwards has idea that he was theol pupil of g as the work in Dos Santos just as Dr Chamberlain who had been pastor before him was head of everything. Then have left all other book stops

of the School at Goodwood Edwards came in to take charge of it.

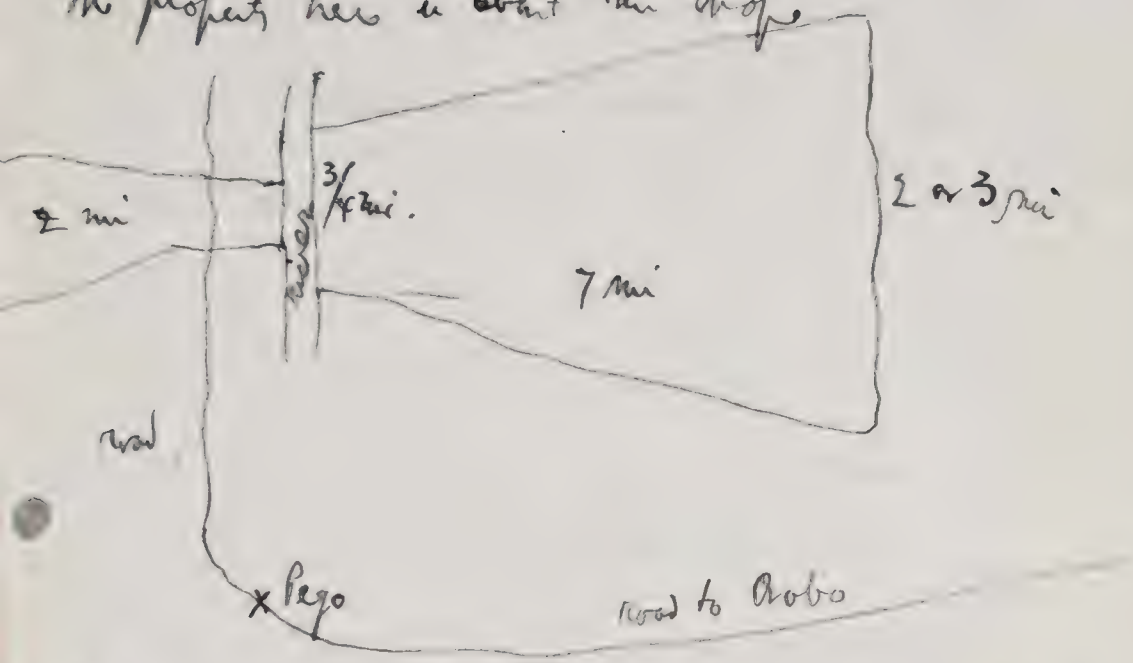
Kyle Smith, Alvarez, Carvalhosa have been the manipulators of the Church in Brazil. Carvalhosa has been the most honest worker. He was a Presb. parliamentary lawyer. Also been the manipulator. Have got his name cleared thro C. who gets Ch out of date of false position. L. thinks that he is the smartest man that he is not - Do says so.

W. says Dr. M. wrong in the School plan. Curitiba a city and they boys in from villages get A-a boys city sent in rich children with them. Such graduates don't want to go to local country places, to other boys want to be seen self-respecting but to ink leaders in. If these Schools in Goodwood are not wrong. But as is in India sending out boys + girls who are discouraged to start out as not Christ. No leaders are among the boys + girls from Coqueiros Summer Both boys + girls from the town - ideal to the School. - girls good + high - both boys come

poor old families. Wonderful how that London wash
us to take rich Colonial boys & convert them. But
W. says they must produce teachers & preachers - who
only get them from Christ. boys & girls. The Scotch
go to an R.C. school & probably to that but even
the school, daily know the Law is read, and the
New Test is not read by that ministry: produced
from county Corporation, the teachers boys & the
standards are set by the R.C. boys from old families
who have always dominated boys in Brazil. W.
heard a rich R.C. boy say one "But it's queer that
rich or then Protestant boys are we have views but
they have also never a Book." W. wants a
few Protestant boys with whom he can read Religi-
ously & ethically as he would do with mixed. If
these they had not got from Scripture to teach they
rich ought to make plans & the Mission have to read
a Catechism.

W. says Effie Kensington is crazy. Has written
bad operatic which it was hoped could. Robin has
died - but that he could is wanted as - has come back

The property here is about this shape



There are mango, banana, Apon cane & on place. Oranges & coffee can grow. Also rubber. Pineapples already started. A big pasture fenced back from the river about 3 miles and about 300 acres, fenced & bound by impenetrable woods. There is a tank there wet in wet years. The cattle eat there each in its own place. In dry times the cattle are marched down to the river drink, both ways, and marched back again to their own eating places.

Luis Jimenez cleared net on year 62000 Pesos on cattle. Puts his money into more cattle and land.

Ca Azp Subastas & Regime

Pathetic the way B. & M. fear W. the Mexican Revolt
has a three strange men to speak of. 2 three more
men come, one named Le Baron, Pancho Villa
on the San Francisco with McCall and one at
Villa Nova or in that Region.

Luiz converted some years ago. was a Mason cadet,
then cattle man, then a bakers keeper at Lisbon
when Dr. Chamberlain met him with hand having
lost a hair of their own. Poor Luiz a Bible
Man not interested in Karma & the Bible. Then read
the Bible at home this cage wanted Luiz to become
a Christ. Slowly came into the Christ faith, then pro-
fessed after having the sight and gambling Opium,
fixed up his cheap business and moved about the
feira on another day.

Two pastors preach here at Riachão & Cachoeirinha.
One abroad in the city as at Pega.

When Luiz became a Prot the priest fierce to Luiz
and sent a gang of desperados to Riachão to cut
him out One day Luiz rode in with a boy behind
him & unarmed & called out the leader & faced

him that if they came any communication then the next day they would be arrested. We were sure that him must have had a crowd of his men up in the woods and they rolled out & got off and afterwards when they found him alone he felt it was no use to buck to such a man. Afterward this priest had to flee from Riachão to Carbonicinha where him had to protect him. Against whom? asked him. Against the Catholic people. Yes, said he, it must be easy for you have been teaching your people for a good many years to be mean but you go on there & I will see the people that if any one bothers you, I will deal with him. The priest has been living in harmony relation with the former school teacher.

As to Landin - instead of his making the trip a the trip to Rio at his stay he made two. I made numerous trips. He is to go to Carlos field. Bettendorf has land in Carlos. & in fact there are Landin men to Curityba Co. argue that numerous in Brazil moved not own land as that always his men down. Made friends with Guimarães

in Sao Paulo. Landes was the last in to B. in August. Cons. likely to leave here two or three months. Eric takes now Jacobina field and work around to Oroba.

Ten years ago there was an understanding between Presb. + Bapt. by which we took Aleppo, the Baptists Espinha Santo, and in Bahia South by districts (legal) and East Bahia with island of Itaparica open to both. Taylor claims right to Jacobina by all founded and also by prior occupation though the A. society there could not meet might be looked after by the others. It happened however that both societies worked in one town and Taylor cordially agreed to our going in. Rio Salso the Bapt. have been and we last night Kalli conference. Taylor agreed to Cons. going to Camamu since but afterwards Cons. not so. it in the Bahia proper. Cons. went to their premises who said that we be obliged if Cons. that C. had sent to Can a native colportor before going down himself. On the other side Taylor has rented Prince Constantine field + for the work they

have reached the Georgia Head. Solomon Quisberg their great fighter. At Palmarea in Penn. he came in Synod a Gospel text down to the Bishop. pitched it up., boy just a boy just who had never heard the Gospel ~~the night~~ before came out of the Bishop. mtg. & who has not come in again. Taylor has since in his own journal renounced the agreement. Now the Baptist work is much more than ever it was stronger. The Bapt have party in Georgia. The Esp Dan Jackson tried to. them at a wedding then he had baptized two boys who had never heard the Gospel before. It was an ignorant ridge crowd! Jackson boasted Taylor claim 1200 members. W. says there are 650. They have not one self supporting church organized in this State. Ordain men are dog & murderers then the next. One brother as to baptism & ordinations. Taylor went crazy and died two years ago last June. Before then a sound, wise, good man. Doctors said he died. not come back. Wife came as a crushed woman. The Gospel Baptist body. Boys drank a little too much Taylor denounced them. Both Bapt. they have now two churches there. Boys teaches English & they an Eng.

Lewis moves - the Anglican chaplain who has the Lewis boys attached as the fed. being away just now - a weekly meeting

Confirmation. C. 09 - that by night and it works here the boys are kept separate, the grammar students, - girls chaperoned &c. Here the girls are clean minded.

Mrs. C. confirmed at Hencote. the night it occurred the chaps shut up stuck before & behind the house. On the shut a man was placed by the officials to see any person. unpleasant house across the shut were recalled for the night. Instrument as fine as any I've ever used ach.

Kyle letters to Cooke - C. 09 don't count these three books - Pastor, Sinners & Obedience. W. 09 Schneider translates Pattison. and Kyle sent it up as his own to the Univ. to be 09 hours 09 - They do count a good (1) Church Hist. but Obedience is not satisfactory but likes Jesus. (2) Bible Dictionary, smaller than Davis's. (3) Commentaries - on the Epistles. Spanish books like Prat's will not do. (4) Liturgical. Have now the 3 first hours 8th & Ch for Prof. Montefiore is lecturing on Ot

J. R. Miller's Books.

Thanksgiving raised question as to the continued reduction of Missionary quota of their salary &c. They might have sufficed this year. Strained some to entertain the Synod. Expect to let them feel the strain & what have the Missionary act as a special providence.

Bahia Church bldg in difficulties; one wall sinking and cracking. Some of the people have withdrawn their children. Some will not go to the Ch. any more. Whole proj. cost about $10000. Not well situated. The people not able now to incur a large expense. And the present project can't be used profitably.

Mr E. will go into a house & store and living and ask for money. People will give it to get rid of him. Mr E. says they sometimes cuss pan handle and will keep him.

Mr. Bahia A. was hurt 5 or 7 years ago. - opened in Jan. 1903. C. says that it is due to an upward pressure due to pulling in of adjoining bar with sand & ooze soil. No other land available at the time. Priests not headed off as others.

Parnaiba - 8 yrs and 12 mos furlo, 5 yrs & 6 mos furlo, 6 yrs & 8 mos, 7 yrs & 10 mos. G. says that Bs. wanted us but the 5 yrs arrangement. Look this up.

Left Quine at 8 am having eaten at 5. Had a sandwich with bread & hog, rough arena. Just like Prairie save a little more green. Looked out over an immense track of thicket barren for hundreds of sq. miles. Came into a plain at evening, free of rocky crags. Could not see other road ran to the town, but we struck across and turned right to strike a place we did not see. The town better than most but to dirty and all the men loafing. The men seem to do no work. Ex ee in an farming, in an fishing except a crayon. Can't tell the men do in it by, store like are least but night, a hog.

Miss W. has been here since 1906. and likes it. She is the Portuna Evangelica. But on invitation to the Jefferson Club on "Progressive School of Portuna." Dr. She is part of the race as by the town. Miss Wear is this position here. It regarded not as a Protestant missionary but as a body living in the town. Indeed by degrees in proportion her way, the people drop words for nothing.

Miss W. has green plants in her window looking up the street. It was that as the good people would depend upon upon her.

Two RC churches here. They had no regular services the churches were closed entire on general Protestant services. Have had to stop town down because they have not been able to maintain order.

Prospects - Each Colonia as stayed - the most prosperous movement. It has the teacher here trained in our Protestant school a governess for his grandchildren and allowed others to come in. He has furnished

the school room. Miss C teaches music Mr Bell's all we do is to assist the teacher, rather outlay in conduct in that the school be non-political.

There are two public schools. One for girls taught by women. another for boys taught by men. There are no classes. No boy may come down the street and both in vocal and mentally. If any are misbehaving he whips them. He seldom hears recitations. There are no classes. Children often stay for weeks the same lessons. The schools are a farce. - simply for subsidizing the teachers. The schools are political. as Miss C. has observed.

Miss C. thinks her 12 boys intellect

The children are too dull to reach, especially the boys who have no use for the rostrum: the girls a little more possible

Left Dar Dobb at 10 after a nice morning & night Rode up with rocky stream - Dar Dobb back from 8 miles off on a hill. Rains on the hills feed the stream. Stone piers for a bridge over the river a league from D. Dobb but no bridge ever put on and piers falling down. Here & there the D. D people had repaired roads and built stone in like the road down from Mian Dob to Mesopotamian plain.

The people say that have a medicine or charm for rain. No one can tell the priest had any thing who want to make money in this way.

Beautiful big flags and other wild flowers - but coarse

Rose at 4. Raining. Left at 5. Rained a good part of the way down to Bahia. But as we reached the Bay it cleared off beautifully. The water was rough but a fresh, cool wind. Bahia was entrancing.

Went up to Hotel des Amiricans. - best but bad. The Yankee Consul met us. Received Dr Stevens remark - "Proper boy, (handing them more) What a beautiful city." Christ in st. Cola & audacium.

Went into a church where there was a service. Almost all the churches locked. We found one open. Could not hear or present at all. The

music was good. Almost all the people women & few children & men. One priest in the Confessional. The church gaudily gilded, and free of chairs & children. Virgin & Christ in front of the Altar. The worship began with three priests before a little kid shrine of the Virgin. The R.C. church makes no appeal at all to the intellect, no demand of it and makes no necessity for it. It asks only emotional response & bodily prone. So we have in Brazil the paradox of a church which does not address the intellect.

The Pres. of the State Senate who was on the boat with us said that the priests stood in good place for men. Such a scandal as the priest at Maceio for last Sat. When he is before the altar he is in the place of God & his private life does not enter at all."

Spent an hour & two going over the Medical School reputed to be the best in Brazil. It was not very disappointing and was in appearance. Even completing a new building. Its clean cut organisation. Anatomy library. Together were in the large Medicine room - 1200 books there & each collection were in the anatomy section. Operating instruments were in a room where they did not belong. There were collections of tropical woods and botany and Brothers all together in the chemical department 600 students, & rightly so as district. - Yet there last there were 6 chairs - two of them antiques - and the whole equipment pitiful. The histology man who took us about knew his drawings of throat muscles - inaccurate. The dissecting room another pitiful thing - the bodies quite hard today. Saw eyes with black crosses on them were in an adjoining room. The splendor were in the audience & cases rooms for displays

Visited the Cathedral. Very many. Had a Portuguese country it with lower city & other churches.

Went & lunch from Pascal. In the noisy churches

many Roman worship books but no Bibles. A native can obtain indulgence for 40 days by any who cannot attend more than days each week in the Cathedral. No doctor who let us in was very drunk. In the basement a printing Establishment printing medical books. We printers called the cathedral.

I saw a convent with all the windows covered by heavy iron bars like a prison.

We are living on Pensions on the Rua de Ruda - Street of the Wheel. In Cohen was a revolving barrel set in a convent wall, and open on an interior for reception of foundlings. They were put in the barrel which was then turned so as to carry the child in where it was fed. No questions asked. This was the start of prostitution too. A man could not walk down in the middle of the street without having his hat snatched off. Such a barrel also here in Bahia in Rio das Pardo

Carmelites did fair work but also a Dominican. Ex. the strong man at Kl. much respected, learned highly regarded by R.C.

We went past the house of the religieux when the bars. in. In the middle window of 5 there was a small door which opens outward. Just within was a large heavy round revolving box like a barrel into which as a shelf the child comes to put and the barrel revolved, turning the opening inward. As it revolved it rang a bell. I turned it and the bell rang so that we had to watch on.

June 6. Sunday Bahia

Many fire crackers. There are a part of the celebration of the season of the Re coming. The sacristan arranges for them often. The people say they dispense with ghosts. At Cachoeira are coming are greatly disturbed by them by rockets.

Mayor Clark says that he hopes Christening cries begin work in Pernambuco. That the other churches are all combining among the lower classes. That now that the police is getting hard of the better young men there is no church to which they can go. and the present church being cannot draw them in. A new church like the Episcopal cannot get them

June 7. Monday

M. and Mrs. Ings they need must books for the propaganda - apologetic, sabbatical. Would like to have translated Archibald Alexander's Evidences & Inspiration of Bible. — Manual of Cath. Controversy. (English) Phelps Th. Theol Hour. The Mean of a Principle of Science Great controversy over the person of Ch. - rationalistic, Pantheistic &c. Protestant men interested in it Roman. priests do nothing to meet the views. Methodist. defended the faith with all its force. Luther and the Fundamental Point of Attack. is act of faith - that is received. Luther Johnston the Scientific Faith. Meth. Pastor Briggs Views to be kept in print, also Charles Church History. but views proper Synod.

M. says the main sig. of the Rom. is bad. The example of the priests is evil. The Ch. is not here a salutary against sin. The human religiosity is only out-

lently. The influence of the nuns is not much felt. They practice charity - but in Roman ways. The Belgian people are charitable. There are innumerable institutions for charity all in the hands of the nuns.

The priests are mostly Belgian but to say the increase in efficiency of priests & nuns from Philippine, Spain, France & Germany & Austria - also Roman Portuguese.

The Ch. is rich. It has land & houses. The great churches & large rents. Govt. pays nuns for their education & charitable institutions. The big hospitals here is a Roman institution & Govt. pays 100 Francs a month & year for them.

M. says the people are law abiding & good but very immoral. Do not know the Christ. basis of real & pure, true. The people - men practice already grossly. The exception to be found only in the Evang. Church. Rel. men do not believe in celibacy say that a man can have only one woman. If a clergyman says at 18 that he does not know a woman the Belgian men do not believe it. Among women the morality is better. We come first & Germans last - Spain & France - in very general.

In Brazilian families the men are immoral, the women probably moral. The newspapers show an immoral. If women are immoral society condemns it - but not in men. And if men are immoral, how can women be? This is the city life but the rural people are moral. - It is not good in towns but better than city morality.

Character in Portuguese means juridic & restricted civil not morality. The Brazilian do not understand that term morality. Do not do only a person bound to pure. Due to 400 years R.C. education. Why? The Re education is more in habit, music in habit, form. The Ch. never preached re. impurity & immorality. Now are beginning to do so but the moral element in the R. church and any improvement in its education. Due to the Prot. church. The R. church is reforming in moral limits as result of Prot. propaganda. - Now the priests are preaching, have good teachers in their Seminaries.

Now the priests are good men. The celibacy is one of the principal causes of the decadence of the priests. The priests hope that celibacy can be abolished. Some of priests are unity in newspapers re. it over pseudonym

The people don't believe in the morality of the priests. But they believe that there are some who are pure & upright. Though he dont know any one personally & can't say this.

Whatever they mean by indulgence the people understand by it free license. This a principal cause of immorality in Brazil.

In Prot. the most cases of discipline due to breach of 7th Com often finds people out of church. Eg. Man adulterer among are to receive. When he comes to found an elder & eg. in adultery. With an unmarried woman of the church. In one such cases the parties are excommunicated.

As to what Bd. Mission do, hard to say in the town. As to Baptist Church bad. The Bd. had a good school here in front of Mr. Kolle. People don't speak of the American School. Dr. G. is not in accord with us. Eg. Mr. He worked like the Bd. to have a good school here. Mr. Beck School not so very good. He was too busy with things tho he was a good teacher. An American school would be largely supported here. As I made it a good man a good woman.

Mr. Page work is difficult & demoralized (1) by the failure of the American School (2) by the bad conduct of Brazilian members of the Prot. & Bapt. churches - lying, adultery, &c. Missionaries respected. The people hear the high standard preached by Prot. & listen & then see the failure of their character. (3) by the bad location of our church. Our French agents are our best people. Our principal hope is that good families will come to Bahia from churches outside of Bahia - Natal & Santos

There are 15 Ch. & 25 Sunday schools in the two Bapt. Missions. Prom. Mr. Page almost all our members. Much rec. persecution here. Worse than in Rio at present.

Relations between the people of the Bapt. & Presb. churches good but as to union. "Jorge is a Presb. man & Joaquim that makes 2 of us, a Baptist man". The Baptist think ought always opposition to Presb. ways & doctrines."

"I disapprove of Dr. Chamberlain's very particular and active & pretensions of Edwards as strong. Probably Alvaro & Edwards can be reconciled but the spirit in Edwards flag - anti-masonry. We can agree in our masonry in Ch. but that flag is not sincere. If he will

believe that we are not masons". Opp M. "I don't know Chichester Ed. is mason or not. Alvaro was a Mason and Synod which once Masons abandoned it after the Schism. Reconciliation proves a three terms. Ed. begs the Synod is not working with masonry, and he must recognize his right to combat masonry."

M. says that there are a number of ministers who were Masons that not publicly renounced Masonry but only no longer attend their lodges.

The Synod once hopes the decision did recommend that for the sake of peace the propaganda re. masonry be discontinued.

Milkman. Dave are looking his cow. The rope was tied to the cows tail. He carried his cans under his arm. He stops in front of houses and milks for his customers. In this way the milk does not spoil. The customers can be sure of its cleanliness. The rope is necessary to induce the cow to give. In cow places the rope is applied first to lead the cow to lot down. The milkman gains by the profit on the milk which he measures. McCall says as man put grease in the

bottom of the rampart to prevent the mouth.

We were told it is said the dogs are as much in Brazil as the men are dogs

Mr. says Dan Landes the strategic place for the mission work but "unfortunately it is broken." The Mis. Training College, Ordoña Americano were very "progressive". That leading men in church work can pass the school Brent knows how it is now. Religious influences - does especially to the lady teachers & music. women Miss Kuhl, Miss Scott. but mentions Dr. Howe directing the worship as dog in the school. Bible - proper. Contradictory opinions - he doesn't know whether religious influence is as strong today.

Dr. had great prestige as an educator man in the state and if he had founded school over the state their success would have been assured. But today the Govt. is taking all the methods of the American school, it has occupied the ground over the state. Perhaps Dr. could open such schools as in certain places in Minas & Parana the field is still open.

1 Two steam ships meeting end on or nearly, end on
Meeting steamers do not dread
When you see three lights ahead!
Port your helm and show your Red.
2 Two steam ships passing
Two steamers passing, you must try
To keep this maxim in your eye:-
Green to green - or, Red to Red -
Perfect safety - go ahead
3 Two steam ships crossing
If to Starboard Red appear
'Tis your duty to keep clear:
Act as judgment says is proper:-
Port - or Starboard - back or stop her
3 ~~Two steam ships~~ crossing
But when you see Port is seen
A steamer with a light of Green,
There's not so much for you to do,
For Green light must keep clear of you

Port = left side looking forward = Red
Starboard = right " = Green

Wiseman says that the following decree passed at the
4th Council of the Lateran is also a "part of the ordi-
nary statute law of the Church." — "If a temporal
lord after having been required & admonished by
the church, shall neglect to cleanse his land
from heretical defilement, he him be excommuni-
cated by the Metropolitan & the other Bishops of the
Province. And if he shall through contempt fail
to give satisfaction within a year, let this be
signified to the Roman Pontiff, that he may there-
upon declare his vassals absolved from allegiance
to him, & offer his land for seizure by Catholic

that they may, after expelling the heretics, possess it by an incontestable title & keep it in the possession of the faith." Knox. Records of Eng. Catholics. Vol. II p. xxvii

"It comes from the head of infallible & treacherous R.C. Church - one may almost say it

cannot have eschewed the implicit spirit of persecution – has the tolerance of Protestantism been permitted [in the Dark Ages] to belie the fair fame of Catholic sanity, had heresy been permitted to pervade the pure air of Catholic Church. – In fact in any apology plea being made for the then existent intolerance of heretics that, as to an apology cannot be more pleaded for the Mediaeval Church – & cannot indeed that very easily be pathetic pleading – that she tolerated the neglect of intolerance. – And we must hardly add – that we are not dense as then – that the same principle which applied to Mediaeval Europe, applies in its measure ~~this~~ to any contemporary country. Such as Spain, in which Catholicity has the entire possession of the national mind" (Dublin Review Jan. 1877. p. 39)

"If tomorrow the Spanish people or armies by the Cath. church, were to see that a greater evil ever ensued from granting religious liberty than refusing

it, then it cannot have a perpet right to repeal it. Of course the Prot. Press cannot learn with charges of intolerance & can plead rightly Salvation to Protestants in intolerance to Catholics."

For it is grounded of the idea that the true church of JC. exists partly of the Roman Ch. spread abroad & propagated throughout the world, partly of the Photian schism & the Anglican heresy as having equally with the Roman Ch. one head, one faith and one baptism, & the Catholic Church offers prayers to almighty God and

deserve the practices in Ch. to pray, that all who have left the Holy Roman Ch. not yet in the Salvation, may obtain their errors, be brought to the true faith & the peace of that Church, may that all men may by God's mercies and return to a knowledge of the truth. Jan 12.

Cowdroys returns to Ris by early. Porter, Clark & Prob. Came out in a hog to meet us.

Met Prob at noon. My sojourn thanks to Bd. for what it had done. - now but glimpses & vacant feelings.

Alvars spoke of visit from this church as evidence of success - formerly Minister who died in '69 at 32 yrs of age. - Blackfoot evicted it - Thanksgiving raised much of the money.

Prob free of fears - gladdened by his - his conduct & character but a great work. - Boors mother in the field three days & nights & work. Rel. like Irish Gaels

Porter thy said Spirit from Portugese but did good work & Sarah. evangelistic. this

"Presbytery wants pros & Kyle & Paton pulled together. Mission. We can't take pros for ministry - are called to pass place to place. There has always been harmony here between min. & Pastor. The field is too great & we want the help."

Abram. The present work too great & new places are calling for workers. And are there any young men who are thinking of opening which the Church can not pay for."

Moderator. "If another minister. Comm ought to be in Campsie. Importance of place, Reorganisation of church there. Need most in county."

Pres. is doing all he can. Want new man appointed for New York. Wish put him in a field where this is not already a Presbyterian Church. & foreigners also are to politically sustained in prison cases.

Are agreed that Campsie is the place for the new man. in Porter's place

Abram. How already asked to have Kyle return to him in the autumn. There is no

foreign work it is very beautiful. We could in

spite of health have kept them a part. Any way was a good reason for having another man there in it. advantage to the Bd. of having such a man there. If Bd. can't agree, how can separated unity. but a man on both sides here. had a good majority both. stood here. the Bd. one had on her but was under Mark a Bapt. Now meets the needs of one. Church. Boom section has disappeared that is best to have replaced. The Bapt. due to Missions the best of reasons but in our outlook should carry an exclusive especially when we have so few preachers. Missing needed for this - to which always of what he can adequately do. This church has room for 500 seated all over city. Has 200 baptized members. - communicants and children.

Importance of sufficient preparation of work and ministry. - For a long time good eyes on the Bd. the appeal of the program. Now eyes on the applicant as a man. In the former case complete contact time. The must hitherto has been prepared by the faculty as good has called this country home a certain school

Annual Report 1911.

This is true. Had not enough teachers to prepare more as they have been done. Now with five pupils we can arrange as the rule for which the Board was established. The present numbers, but can from four classes of two extended with Pupil-teachers has been helped & the children in many. Speeches & moderators helped & the Keyte. As the children of the four pupils numbers we must aid of Bd. to help them. Only as y. Evans we have a financial case. Study as their own charges. No Bd. has done much to give us the progress. We cried out in reply to my query that they wanted such workers – but that a man wanted first. They asked for six women – and during are in his field. Thirteen people were in church.

Often in Brazil Re. is only paganism, fetichism & Papal
idolatry. People believe they find on back of the Cross an idea
of other such appearances (more powerful) Christ.
Cathol. in Brazil is called Religion - has its form & ceremony
but is not Christ. Proof of this (1) Prot. employ a & train
a great preaching agency. No more often does Thou in

Often can have the work as in Love & Caulfield. One can overhear them. Cait in Brigid drew God in an religion - Love in the Seminaries.

Protestants for awake more up the religion of the people.

The great support of the Irish priests is Lectures, anthem & Good Friday Stabat Sunday night, & charges for the Sacraments. Always one sees an anthem in a church but usually outside. My to be more devotion but Jesus, then like them.

Nothing perfect - one a priest - Yes that when he was a priest he was a perfect priest. Boys from the priest seminary went to a town played football in the street & the altar, had sacraments often but the city with its saints in their hands. The city was Pandaleo in E.d, Immaculate. It was a among Evening friends Common for priests & Echo past in their street Chorus

The church supported also by the proceeds. See the new Wm building erected by priests. On a good Friday the chief

One of the great obstacles due to Rc. church is the pilgrimages. It is really a great picnic. Egypt Penitents - the ch. visit the 365 steps of which they climb on their knees. The adding ornament to make them as bloody. Then come other penitents who lick the bloody steps until their tongues. A large feature of the pilgrimage is the prostitute women. They are also a feature of drunken men & gamblers. These gamblers pay a tax for this to the priest. This priest acts as the pimp. Men to be fighting at them. The last time 200 extra police had to go to the Penitent pilgrimage.

Here also, always 85, the best Artists. Come from the Rc. church. They are the Christian Catholic who had studied but not been satisfied. Or have also come who were in disgrace, some civil men & criminals. Remember that many civil men carry the sacred buttons & pretend to religion. Religion a cause for evil.

Don't know good Artists. people in the Rc. ch. suffer

there are such.

Lovers of the human Soul - & but as sympathetic

the man devoted to Christ. The man opposed to us.

In Rc. such Christ. has a particular point to obtain
he is devoted. Does true Christ. as this point. Does the
Holy Spirit.

As ours Bringe the Rc. from the Bible a product the

their people bring them. or reading them. The priests
denounce those having the words of the Bible devout.

The Ch. opposed civil marriage & made it compulsory.

The church always fights against the responsible. A priest

acts + the Pope

Supp. of Rio Ogs that the contrast of the Bible which
the Rc. church has been chiefly due to the influ.
of Protestants.

There is no portion of the Bible opposed by the Pope
in reply to a petition from 55 bishops who took part

in the Vatican Council of 1870. The bishops asked for the translation in Port. of a Missal edition in France that it had been from the Port. the priests of the had urged that the Rc. ch. hindered the people from reading the Evangelhos. — The letter is this great was French. A Portugese translation of this edition of letter

Instead, he a Bahia edition of Acts of the Apostles that it is seems to meet the practical of mission. Bishop's edition of Protestants.

Always Pope priests do not know the Bible that the editions issued by Rc. are lying ones are not approved of the Rc. church

Priests even people not to attend but as a the devil cast Satan them away

The Rc. ch. has in hand an intelligent man can do in a practical sense. A Rc. politician priest too always defeated. Anti-clericalism dead open extraordinarily.

As to moral influence of the ch — which they do not want to hear to vain. Always ago — clergy in the ch. in Brazil, the clergy are immoral. Very few are

the Magistrates among the priests. Do many scandals have arisen with the clergy. and against a priest & many in a civil court a quo whom is had wronged! At a meeting where the Pharisees ridiculed a pleasurable priest who had committed with a prominent woman. - Or in England a Quaker drunkenness as relation is said to have disinclinations with the clergy among the Romish clergy.

In Mass Priests. the clergy priest relations as a Catholic & gentleman. a people respect their Protestant whether it was proper & moral. Common practice. But are known their union and relation with a certain family.

Is a married church with the Celibate? Always. Is Romish people believe it.

In the relation & acts of Papal synod to as many additions to appeal with reason. But it is in Italy but seems to indicate to the people that they are additions.

Or to the Independents. Always. Bishop has said

this it cuts and with certain principles. The argument is so pursued that it cuts to others than persons 90. Since the Spirit has gone more beyond the leaders. There are three reasons for unity. as published 1) Education question most important. (2) Marriage question. The Indep. decent to counsel marriage to outsiders from Prot. than merely concerning practice - the corresponding connection of Parts. They didn't want many. with Romanes and this can notes the principally influenced others. As there only got many from musicians connected so to vote in this Synod. And almost up. the Cross reason for this Romanes marriage and that the Cath party gained. But always dissent to only this and. to. Vivian's and why did not. but mean and why a contract. Thus there should be free information marriage. There were some missionaries. Other need marry to Rome (3) the Mariology question. Visit has spirit of Jesuits but this came to the Indep. party a prejudice against people in marriage than the present Cath. party. Mariology has been accepted for liberty of Virgin to be. have brought liberty. People taught to pray to Mariam. Protestants & respectable

As to first point. It was localized in Scotland because (1) most of the young men who went there to study for ministry failed to read the ministry. And (2) because they saw the only person who had. and (3) because there began to be explicit, and then began with the coming of the Crusades. when they began a re-visit they were struck again by Crusaders regarding the character of some very men in the interior of Sao Paulo. There were candidates for ministry employed as field. mainly among poor Brazilians. One of candidate lectures of the help of the ministry were with Dr Gama but a question with Negroes. Later were hands with them. This joins of in question of Scotland does exist in the Synod as the time began the disturbance - the year of 1890. The question was then as to his ecclesiastical relations.

Since 1892 the place of the Sem. had been discussed. As the Scotch system as the location of the Sem. in Scotland because it served to those related to theology students

Other than these were two parties in each musician No. as the effect of attached policy. This led to dissension opposed to beating the Law in St. Pauls.

Against this state of opinion which compelled the Law to be upheld in a plan of action was formed in the Spring which had the united approval of the party of the musicians opposed to Edwards.

Thereon in 1892 some of the musicians thought the musicians Hall. could draw from Pauls.

At this time Edwards & one of the musicians in Brighton acted over in the separation of the musicians from the Pauls. Which was the first musician who favour separation as the act over who then opposed the Brighton plan of Edwards.

Afterwards Edwards changed his opinion. When he saw that it in his own place to lead to hire the musicians of Brighton who thought musicians would leave Pauls. Edwards plan was for the Law to be in Pauls etc but an attempt to have

Borges taught in it in preparation. In '93. In '94 the Govt organizes this unit in San Paulo. In '97 Edwards presents to Govt a project to form students of Law. who were not prepared into a normal class to enter as prepared class as a 2nd as Ministry Govt opposed. that there should higher in Normal as Mission school. Because Govt had opposed of Normal class .: Edwards wanted to establish a regular school. Then began the hates as Govt did not approve. Then at last Govt Edwards kept of this project "No has Bases" and Then came up to the Marconi question.

Richberg pastor. - Alvarez et al. Criss Marconi & others Edwards took this plan. he agreed Clemente Mission, Marconi & others and have kept in the Opposing those who wanted to establish this. This proceeding went for. E. called Marconi as Alvarez the Compromise

The Patria has hindered very much the opened Stte Legal. Whereas there has been independence

with great ing. evan of both parties has been found yet. Here in this Dist. when they are equal the evan is fair. In Lombardy Edwards last life yet great prejudice in minds clergy - as scholar & minister - but have you have Luis schism how to depend him as. accusation being a Jesuit. In state Lombardy Luis schism among all churches. Boyd. Much as can over - has been hindered. Independent movement has doubled as the clergy the Episcopal they are fear in the Dist. The two Lombardy principles need. the last year than any one of five years has 465 about Conversion in this Dist. - Now there are also 60. Presb. Cathedral Lombardy (2) Methodist & Mexican. This year that God came has not the Holy Ghost. The communion of the Indep. has been four. & now five others from other churches. They count 500 members but don't think has many than five back again.

Alvarez says this in thanks since the schism the Gospel has added more by conversion than ever before. Present number -

During Monarchy all priests paid subsidy - about $250 each year & went. This was abolished by the Republic. The local priests used to be largely indepen-dent & to have a large power but in the effort to com-bat that a larger number of bishoprics were made. In San Jose & Cartago the former priest was very friendly and when he went away used the Prot. as usual. The new priest was a different man & instigated the persecution. The reputation of the character of the former priest-cobo was a Frenchman. He was succeeded by Mr. as a priest of Christ. Quesada was Italian. The Jew of the state of Esperanto Costa & the Bishop of the state are brothers.

The Metropolitan papers denounced the outrage at San Jose. and even others down on the Tres of R.R. because he had put his priests in the Normal College. The city papers are favorable for freedom & the Journal de Comercio is favorable to Protestantism

Marrow de Brito - in his last two visits rec. two Baptist families. In first no members of the family knew anything of Gospel doctrine. He only went in asked on baptism came & they understood not a chapter or believe in immersion. When I asked them documents they gave me Romans 7. and 1 Cor. 10. 1 2. Not one custom to recognize Baptists when they came to us. Baptist pamphlet says that sprinkling in a form of baptism came from Rome & was when Rhetic. This was written by a Baptist missionary. I have asked a lady in my ch not to allow the Baptist minister to have meeting in her house. That is their custom to come in and pervert existing new families. The Bapt. also says that one of the two editions of the Bible false which they baptized with in water false.

Conf at Kanan

I raise two questions as to practicable ideal of work
in education to certain spirits & classes. Germany
says theological education should be closely in hands of
native church with an Indian rep. I heard
that I mean in much - eg. the Presbs want a head dem
Those Germans say he had always that the Native
Church ought to have it. Thinks that they think that the
work in Ter different from South to need such dem
here. Ger missionaries in the South ought not to work
even as such a dominion. Peter says Germans
dem. even set up by Hendrick and that no. found at Ba-
hia did not wish to appear - But Peter agrees that

it was the Rio Dilapidation which disappeared. Dr. Ely says that in dreadful as far as it relates to the Rio, and but that the theory apparent otherwise in 1858 was that more correct understanding exists where & what the real dis- Rock. - appears.

Germans thinks that each school a part have should be set up in each Prin- Parish, by Bayagan com- in which of Rio for Rich & East Indian. In the grade a number of the N.O. town grade & Rich school a county academy at home. (Grammar school, & also Pg). Ought to be as low as the 8th grade of the town school. Then there should be a seminary, intermediate at- al. Then there should be begun in a combined course of one year in American Univ.

Allyn raises question as to relative cost. Heart on education & negligent. How does Japan or Italy. No. of candidates for at home, is low in each Prin- cipal class.

Could not expel a boy from a Gymnasium because he refuses to study other commandments of the Catechism or Bible

Gammon thinks inadequate no. of members due to the fact that they have not been kept abroad, preparing men for the Lords, & that what should we had do not make the work of sending men on into the country a difficult, earnest one. His mean there any want of seminary provision.

Allen thinks the reason & remedy of failure to provide but due to want of facilities. How ready this training to any candidate for the ministry applies.

Allen - Another reason - the motive which has led applicants the men who have gone into the ministry. It has not supported the candidate - Some prove up the churches are supplying & in a land. Some there 95 Mil. a month. Men now. Also have been deterred by seeing that the men in the ministry are poorly supported. Always wants the Bds. to support them, & is not sure to have the wrong view of the churches

Gammon opp. he believes that seminaries should not give away for theol. education. Same gave help to theol. candidates in college but objects to this

dabbling in them which they ought to make it, but though there is known aim is to make candidates to get ordination without getting any knowledge whatever. The bishops know this as well as anyone. For the present the Bishop of Lincoln pays for two of the candidates - but by the Bishop of Oxford now not to the boys. He has a week each August. Some of the candidates have found out that the Bishop only pays 1/2 and would not pay if he knew. Some know this. Another incident of what we possibly expect.

Allen says there should be harmony between Principal's Seminary as to what you do here. A student from Longmire's House who has not passed the exam here for his year must work to Camp, not for his Principal and was advised. What he can do is advised as least of other boys who have had to take the exam.

Gammon says the boys were not mentally capable of taking exam. A degree has entitled taking boys twice. That Principal should take same action. Require boys to take their degree at home before go to the Seminary.

As to simplification of work. Gammon suggests a summ

men retreat. Allyn thinks that Bd. of Com. at home should compose & send out questions to ask the ministers on these general questions.

Gannon. The Church contract the American is very friendly, friendly to ministers. We agree that Church should ministers in the Japanese not only for many reasons but also to have the help of missionaries, because the Japanese do not feel able to do the work. alone.

There are 6 to 8 boys here looking forward to seminary. 30 or 40 who are going to stay after 3 yrs for Pastoral certificate 6 yrs for B.A. Have their own tuition, board free. Matriculation equal to 7 classes yr. at home. Now there are 80 students taking last 3 yrs. of course - Classical

Disapproves of female ushers. But Dr. Summers says it is in teaching ministers and the best of material cannot be got to stay in. Thinks no chance of reconciliation of parties. Effort has been to paralyze the work of the churches. Thinks Edwards's personal dominance the root of the division. Knows of no Bible teaching in the American schools save the Gospel Union & in the open services in the teachers' rooms. Needs new church bldg. Present one rents for 160 Mex. per. mo. $80 for church + $80 for minister less than market value because owner is a member of their church. Church owns land which could be sold for 15 Centos and has $ Centos. There is a property near which could be bought for 3x Centos. 1. Go to Mr. Glen Dr. Smith and Mr. Glen had been that the law was to be a new thing. Some progress. Smith thinks it desirable to divide gymnasium pupils

Probably have to divide. when Students have to go abroad.

Smith thinks that until the other schools actually send

2. Objections to matters shown more.

Erasmus. The matter has not been presented to Gymnasium
& Doctors & others. No same reasons at home Gymnasium.
Mere great. Minute is looked down on, a poor opinion.

Methods of Education of Clergymen have been very defective
Partly due to this - Other parties have prejudiced the
Church. Many parishes due to fact that y. men from the
Universities have been despised & the good doctrine & office
ministry. The Doctors by their life ministered to big men.
Come to the city & spirit that he is not the proper sort
for he a rich & rich women for y. men. was offered to
Erasmus when the Prob. could not give him work he
to be denied. Men employed in the Church by divided many
Clergymen.

Remedy - We don't provide so as to reach y. men during
to be ministers. Point as despised. Must keep men
out. The schools has divided the whole church. Degrees
Because y. m. don't foresee their support. Must be keep
the proper preparation in the for heavenly spirit.

3 Cambridge students by ministers & Bds.

Since Ven. began students have not been supported
by ministers. Now since 1894. Ministers have
helped some but not ministers.

Opinion - many of Cambridge students began then when

what after wards. Thinks that Bps. ought to keep theology
Credentia.

Erasmus. There are many men who will not ask money
from the magistrate: Present Constitution of Univ. unsatisfactory.
If magistrate wants to send men to keep them quiet.
But province ought to send the men to keep them in
the Univ. Univ ought not to subsidize the Univ. It spends
the best men.

Conf. with native men.

Scotland & Scotland but no financial relation
with magistrate - done in case of Convocation. In Magistrate
are the men get help from the Prov. Univ - 6 men
in the Univ Prof. professions - the present time. Magistrate
beg to ministers not supported by churches. In N.C. are
the many going in event to Univ. & distributed. In Univ. N.C.
there are 7 univ. one A.A. in Jahn - other 6 not so in
name but must be in part because the pastors get what
to do. give 2 yrs more. In N.C. provid. order to have no
money sent to Prov. Prof. help as men in Prof. Prof.
are Convocations. Others say "this Salary". But the Univ

collect their salaries & rent in respect for their salaries which they have collected

Erasmus - he don't stop musicians - but then open up acc the country they can - but select fields among the fields now open so that they can be evaded by others - & not to pass entire interim any plan said roads others but in detail - but the land question up.

Publicly denounced the civil marriage. R.C. idolatry produces infidelity as to morals it is a tropical church but its moral fruits are to be laid at its door - not climatic. Also the people think they have stolen. Whereas have got the Gospel can't be so easily cut fruit as superior as in a eastern land. The weak brother v 20 must more work. The actual beliefs of the heads are different from the standards of the Church. - they are free of superstition. The saints models the exact Gods, i.e. the x Commandments - add to 4th - Keep the Sabbath day & the Decalogue. The 9th is those that not covet thy neighbors wife. And the 2d. A few of the saints are of high character & true devoted men. Hawaiian says missionaries ought to teach more the duty of giving and the native learned much of systematic giving. - a little not much to the giving. In great P.O. are finding more the Hawaiian

than ever before. The private moral conduct of the divine

hope the church will discredit by this the work

of low class & narrow mind & heart. and this fear is
that the better classes. The poor man can see a

don't buy enough to put out the right news & put

layman as Editor. But there are difficulties - perhaps
one not agree as to policy now. Dont believe

can have an official paper. But must be under the supervision to be sent by it. Not taken edited. This should come near at the same paper. The local demand cannot be met by paper in supplement a week.

Encourage Brazilian ch. cannot compare the Evangelization of Brazil entrust the and of the missionaries rendered a hundred in regard by. Mrs. for the missionary. friends with missionaries and give assistance to churches. a pastor's salary can do - for salaries of two pastors. but the church can pay and more - like Campobasso - with the care for its own pastor. but also let the mission do all they can to open [illegible] to support them. Now - the Lord is going ahead of them. In Cent. Brazil there are great water powers - greater than anywhere in the country. Very optimistic as to industrial future of the country. With this morale will soon down. We are not hoping for with these men. Have in Christ Jesus as their prince which can supply the sin of the world

for 300 years. being electricity instead of coal. In time this part of Brid has gone forward. In Scotch education things have retarded but since 54 the advance in S.P. has been wonderful

The certainty of salvation attracts Re. to an church. In Re. Salvation is of the Virgin. The Lord has power to do it but people don't like him of it. Hence only a few who have found that

The great need is of more expense. If this was provided could do far more. The Magicians have given power to the workers, but more money for food, wants. Some of the native men are good evangelists but can't afford to do what they are anxious able to do. On other hand if the people are given up, it is bad. Even so that the women and boys in girls' meeting - Sunday classes is so that the men & elders got the idea that are was absolutely free. If practice suggested in this way. Then conditions make suggestion very hard. Satan's problem at home this.

Open door means more modest than men. In

Rents £300 of 350 a month on men in Marian Park.

On coach home Evans told me many of the troubles are due to Ellis' own. Edwards represents point of view of church and always of church. Always took from Ed. away other rights & powers which he was using by giving the. and sometimes ideas of the limitations of Ellis's rights &. His own the root of it.

Also he said the home mission plan was born

L. says Thanksgiving the strongest Lavana church.

Lino no good as pastor but strong polemist.

Have 8 boys in Sem. now; three expected from Lavan. Sem. will provide for two.-

Smith says that when he came had pay. As there were 18 boys in Sem. but mostly impromise but after one of last year class when all but 8 were expelled out. Do! Candidates for the ministry are best seen from the Sem. Show much more from the School.

Lam says they do not require session action or a formal action of pastors or elders to let in boys studying for the ministry. Take them on their own judgment & do not transmit at all but free to handle the boys but if the boy is to be supported entirely from our Board must the board's ministry & the Prud. Com. judgment entirely in any way bring the College Board. Le Doctrille School in Mexico

Comp. Smith, Pater, Hardy, Edwards, Compton

Upon 1st Nov. received as a boy Smith of Black. first elected prefect. Left in Atlanta in '90. At Xmas '91 Edwards & Pater elected prefects. In 92 Ris chosen as place. In '91 Campion chosen Xmas to get it to Batcave - failed. Then in '92 Smith went to Xmas Dist. to do work - fever having prevented Campion. Then again at Comp. to direction opened work on Friday. Ran Dist in Comp. in '92 & Xmas. In 92 & '93 Edwards under plan of action prepared by him & others in view of fever in Campion and the work at Dist. for away, opened here. at L.O. Ris gen split a dignit from. Left about Xmas. In Xmas 1st Nov. notice in force prevented us. Dist. rehearsed & adopted. Edwards Xmas. Smith & at T. P. Ris Smith moved down in '95 after he stayed but down to us & he went left in. Pater Crowded Xmas Xr. Smith 2/3 of work. Edwards also and others came giving various classes. Classes were held in building. back of Edwards present church. - Built of the church.

Then came state of things building. & then came Christ

moved into new Lec. bldg. in fall of '99. Cost not over 150 Cents. for land + bldg. Edwards had already revealed over genetic & Lec. plan. He wanted a big school in the Lec. Heart - as it or ground that the school could overshadow the Lec. + weaken it. Edwards kept it into dimensions. Big fight stood with him - as Univ. Albany, Kyle et al. Opposed Edwards. Smith argued for the amass Rockefeller preparatory classes as reasons for 2 years at least - then only room first. In '99 directors came to St. in July to which have not ready. Then Edwards work broke + stopped his classes on ground that there was no use in waiting as Bldg. any longer but new plans should be pushed - later hoping for Univ. Bldg. going to go in his place. Then in 1901 came head of Carnegie [In '96 an interesting entry of Gates to consider founding Carnegie - but drew - for Lec.] In 99 Edwards wanted Univ. in Capitol place + Dr. Dewitt wanted Kyle. At first 1901 Academy question came up + Edwards was found to resign his professorship which he had held since

1901 had 5 or 6 who Students in Mackenzie. From
Feb 1901 to Sept 1902 Church away. Evans, Cameron
were in charge. had 18 Students - about 14 or 15
were in Mackenzie. - most of whom altogether of

Thus facing the committee was not that Presb. must endorse candidates for ministry. The preparation I should not to be blamed for having such men in their courses any more than Lane was to be blamed for it. But it seemed how keen. Even one man dear of by Garrison & Evans was sent back by the Presbytery.

Evans says no principle yet that Presb. must approve. Christ has left out of Presb. action with in to his cause, as Cumig when he did a duty for his support here.

Smith only regulations as to entrance. 16 yrs. of age good character, recommendation of pastor &c. and intention of entering the ministry.

No only student ever graduated which Garrison Hayes was in charge was in Princeton Sem.

In 1902 Smith resumed charge. In Sept 1903 Edwards finally drew off. Lane went as in D. C. Heb. Smith also came for Evans help in an session. Dent yr. gets where no regular there. Chm Cor of finances Chm in Pastor &c. In Sept of 1906 Lane & Garrison

proper 15000 Kids. In 1907 Sem. opened here in the Campion property.

Smith has sent out 25 men with the ministry of our own gymn a Physician. This is since his coming to N.P. 5 of these are his daughters out of the ministry - Kruger also in Sterling Law. Since coming to Campion 4 men have gone out into the ministry. 5 of the 25 Evangelistic Boys also 6 of them are entitled to diplomas for four years. 7 of the 25 are among the Independents.

If musician are to aid the Sem. they should require regular musical speech appreciation method of work. He are shamed Sem. who is not a min. candidate from the graduates. Smith agrees.

Why raise up more ministers when churches can't support the men already on the field! Must - Hardest problem we have. Many - but men are needed in Rio Bahia and if men don't go in N.P. are not willing to go. Why shouldn't we raise up new men for these places? Must displace dampers & pushers to work. Should keep them there. even if we have

& Cambridge there. Oxford & the financial problem is the great problem. Later & the real thing is the relation to the musician & real support & the rest. Oh. Handy - Lec. The lecture is a series that & book organ. & they can be held over the year. Can go all right. Get the lectures in Nov & the pressure & the organization fest year now than ever began. Help. finances are getting on badly. & Erasmus. - Town & their big men are appointed & Parent as teachers. But until & Edwards Ch. appoints their boys & would do so, & they if necessary. Help. have gain & preparatory education. & an organ for 6 centres at once. Help to raise funds a Separation Day - a good day just after Xmas organ - but need to have money to carry them until then. Then when boys come they had 11 or 12 centres started. We have gain to maintain musicians. This accounts in part for their great success the first two years.

Edwards the new founder & Mercer Museum. He was a great speaker & big support. Now. Who is doing it.

Erasmus thinks it is not safe to encourage the

the Parl. to look for support from without. I can
name the problem of rearranging the relation of the
Nat. Ch. to the musician. Don't do that. Don't ask
for more from us, ask for men. No men are
to act for the Ch. for fear of what they
can have evoked written out. The Nation men
on the opposition. Abram. President of Bds. - a shrewd
Yankee man not of them who have not finished their
course. This allows not order men of either Party apart
of Ministry.

Bds. jurisdiction - 3 men elected of the Board or Ga
and 1 by each Presbytery. (7 now) of the 10 members
6 allowed. The Board members are Governor Hyde,
Hitchcock. from

Erasmus thinks that it would be all right for the
musicians to aid them. Students and of the musicians
& for their work but musicians should not aid the
Students of the Nat. Ch. They should be supported by
the Nat. Church. This finish every inducement
for men ought to be given. Also Erasmus thinks
that too much keep is given and that

men are aided who are trained by it. At home a
in other schools they would be supported from home.

Letter of aid has been decreased from 90 to 60
and maybe decreased further.

Erasmus. Not an experiment — as we are not sure that
35 men a year will apply for board & students. We
hope that will.

Brent — We are not asking for more missionaries
but replacing aid to them. Students by only increasing
the new dependence of the ch. upon foreign churches.

Erasmus — Other churches are coming in and skipping
into gaps in our mission. Must fill these

Hardy. The mission field is the only one for
mission machinery. It is a new field. If we were not
here this fld. would not be giving. But this is
only an incident way of keeping

Erasmus. But Church ought to develop his field so
that it can support a pastor of its own.

Blodgett — Miss Card to submit that the cause of
D.O. schools have been done by putting a.s. too
rapidly. But Erasmus replied that for sixteen

the church & to the reckless giving of early Missions.

Hardy - The example of the priests in visiting the churches has also interested in free development giving.

Evans - The other day I heard in the organising a club of 200 men to work for the Constitution &c. The priests they are men who are church members but they are going wrong for the new club - electric lights rent, all expt. The Catholics can do it just as well.

Smith - If Missions come into areas neglected by Episcopus the question of dominance of missionary relation to proprietors will press again. Episcopus Yes, let the missionaries handle as their own funds - that evil can go it.

Smith - No. - not question of fiscalization, but of development of Church as not advance much by outside help. Best practice to act with very support.

Smith - Or regard our Parochial work as tho it were in a different country. No relation practically.

Lawton - That is the hands in the church. We feel it to be terribly apart.

Smith says that the C. B. Missions - Lawton - and their missionaries are opposed in principle

the separation not only geographical but in principle. The balance in education & this can be met.

Opposition appeared to new scheme of education. viz. favour only accidents for Ulster children

But also appears that in this to do is to let opposing planes but to on. Edwards did blame in trying to make one plan prevail on. others. Ulster wanted this to be given their rights.

In 67 in Conference a great row over education. Home Rule for big development. Begin carry them for free education. Ave bless up in a terrible row - Home Separation from Ireland. Lavan over to the Labour party. Have then a vote to get out. In 20 years Ireland Lays it was known up in the same way. If Conference ever comes then Lavan is very sure

They pass that Bill or have stand also hold balance & that I shall cut on instead by that this it ought morning Stick after Ulster this place. By separate for home

Porter was practising up to go to O.B. for the term. in 1895 when he was sent home for sick headache, but found it had in 96 the Bs. by certain sent back on the pledge to appear a week for the term.

Until then, the Bs. showed sent more men and that of Bs Regt is to be freely used for the 2nd. & 3rd Sect. Showed to Tirah — or if we can't throw the whole thing down on the Ground of the present misunder.

Erasmus says No. it looks like suicide. The trouble is that other demons that commit do the work as creeping in & hardening the soul & creating some of our worst moral problems.

Erasmus - On last word. If the Martins do can give us Ch. L. & Ch. C. for some years a few hrs & can arrange to give a few of our graduates post. grad. work at home, that will be all that they can do for us.

Lemington says that the man who is one of the strongest members of the Guarapuava church & who saved the church in the recent struggles was converted under his preaching. He had been one of the leading men of the town a member of the city council. When Mr. Lemington came along he took an interest in him as a foreigner & got him a hall to preach in but found at the first outset that the Gospel was of no interest to him & stopped going. On Sunday however as he came back from hunting he heard the preaching & thought he would look in & he did & then Mr. L. preaching & asking to kneel & pray one thought the right to influence him & the idea that

The German traders at Canton say most of the people from Germany are in the town. The German farmers are poor Americans and they are better off than at home more free and comfortable. No one knows in the taxation. If a farmer has a big crop he must take it to the market, there he pays a tax if the buyer sells it and if the merchant has he has a tax. If the want buyer sends it out of the country he pays a tax.

Walked over the town and visited the Institut a high school for boys taught by an anti-clerical Spaniard. Public education is under the care of the State Govt. which means all school taxes administered. All teachers certificates are signed by the Pres or Gov. of the State. Objected to pastors so that teachers may be of benefit as a teacher as well. Also the county district might get no school. So as to county of dinner than is left on public school. In Catholic count, with 3000 pop. at least there are 3 schools but as a Catholic town. In the whole state of 3,57 000 pop. there are just four public schools all in the other towns, as in rural districts a priest teaches. In some counties besides the high ones next by the school boy. The Assembly. is to meet triennially and the Synods triennially. The Synod. met last December, so it will not meet again until Dec. 1910.

At the Synod of 1907 (at which only) it was said that Carvalho ought to be replaced in the Egreja Unida by a younger man and that if this were done the Ch. would regain Alvaro's help. Both went to him, told him that of he would so therefore his salary would be continued. He grew angry and said that it was an intrigue against him and that the Mission had made a covenant with him that he was not to be removed from Bom Pastor.

Such transfers as are proposed show the confusion even the Prot. plays here. It is the function of the Prot. to move foreign men. and as the means are in the Prot. which is thus! "We are subject to two masters" says Kalb. "Coll" of P. "if hire agree the Prot. accepts" Bishop motion ignores Prot. & means L. & Landon. Educational plan. (1) Landis project a farm school for laity. (2) Last year plan. Bdy. School for boys here in Curityba. (3) Mixture like Porto Nova.

Kolb - Landis plan Utopian. The Brazilians are satisfied with their old methods and will not introduce any change. The schools are not read the Brazilian farmers to change them. It may draw foreigners. But we do owe building in the School at Curityba that we put in school for children growing up - day schools. That will make change. How boys schools here beside the girls school. a rain of teachers. Farm School can a good practical men to direct them what to get

Kensington. Not already opposed to Gaul plan but doubtful as to working of same. Would have the men then the women could get out into general work.

Micah. – "That a man be at the head of it all. I say no, on the old basis of the mission. The women can run it better. For a great general institution is to be kept up (2) that he superintend all the schools of the mission or shall each mission look after those in his own district?

How to conserve the results of our school work. Then our great leakage.

There are 6 schools conducted by the mission. Kali admits that more could be done to select girls from communities and then keep with understanding that for free education they give certain years to teaching. Nat.

Boys. I see no need of theoretical plan. You know all the boys whom we ought to have. Who are they? Consider who they are & what they need. A boarding house may do it as our younger boys attend the school for girls & older ones be sent to the Gymnasium. Mrs K says the Parsee Gym. is overcrowded

Rev. says send boys to Rama, March. Can have inclination through.

Miss D. says need to have big boys here but have left because so many parents want them to enter the Govt. Open

Miss K. says graduates of the Christian School are ready to enter Mackenzie. Then how just as Govt. Board can establish a Govt. grade here?

Miss D. says one need education in spirit, methods, text book different from Govt education.

Porter talking charges 60 Rs can have for dentist, (Christian) 20 Rs for doctor visit and 10 Rs for office consultation. My hair need prescription & Rs for a print

Miss D. says schools, at Govt. one go to price when Brit. desire. Roper - a man devoted for efficient worker never likes but hides his light under a bushel. Had one objection is in is head a religious man.

The Southern Missionary May 1909, says that there were 6 students for ministry at Garanhuens. - one from Estado of the Help for Brazil Mission. Two others are supported by their families. Expect 2 more. One married recent a Rio girl. S. S. and not intending to be ordained but to go home to help in the work. Has decided to have it a day school and work for laymen as others His colleague - Francisco Soares wants to make it mean but H. hopes to have done his ambition. enable the mission to raise standard & not admit students who have not had adequate preparatory training.

2. Who is to define the ideal of the Theol. Seminary? Rules of G.A. is to do it. Is it the G.A. institution and it chooses such it. But if print and the Priest & Pastor cries he it and cries he tempted to be the real & proper of the church. If they make the plan how avoid the over cries of the missionaries dividing the church? I suggest that the G.A. determine the ideal & principle most fair at its mtg. that Dr Smith & Pastor be silent until they are asked questions, and then merely give information or be allowed to state their views once temperately and not debate and overwhelm the G.A.

July 4. Sunday.

July 5.

Phipps. — There are 6 RC churches here - 3 new. The effect that Religion has on the State very. In the Spanish one prog. is an anarchist, a Cuban - two others are polemic infidels, and has an Cath. priests who teach French & the infidels accuse us. religion; the Cath. don't perhaps get it. In their State much opposition to our religion. The Cuban Legislature does attack it. The Mason Lodge has public authentic meetings. In their Temple. Ch. there are now 80 members. Grew slowly for there were peasants at first in the membership. Now better. The Brazilian priests are few in number here. Rioms were the first at once. The Ry. is a Brazilian. Thinks the reasons for weak among R.C. are first that Ch. loses y duchess - secondly its errors y lives. In the US the first obstacle just as here and Phipps says he wondered in the US. why the Ey Ch. didn't work for the R.C. there. Says this. The problem here much as ours at home.

Vapor promised to come to see me at 11. Failed.

Phipps. Opp. Traders in Penn Ey. Get 500 Rs. a month.

Mission mtg. at 12 3/4

As to Sem. 3. Relation to Kaua. Mackenzie. I urge that the Mission take up the most cordial attitude to them, treat them with being what we wish. The less wine be for less by such a course even if men are lost to the ministry for a while than by a course of hostility and criticism and want of support & sympathy. Our attitude of good will now = a. Absolute shutting up of the past. b. Encourage boys to go to their schools. c. Never say aught but cordial & commendatory of the institutions.

4. Relation to Presb. Presb. ought certainly to act in any standards for ministry which get aid from Bd. of Directors or from Presb. or from any local churches. If boys by their own esp. wish to act independently let them do so but we may withdraw from the churches the churches are under the Presb. and the Presb. ought to have a word to say.

5. Relation to Missions. (a) As to theol. instruction in the Bible, let our missionaries keep out of the Pulpit. I would urge opposition & criticism as what the mission

in the spirit many desire. If our C.B. Missions wants to send more to Formosa as long as their Sch. etc is opposed there let us not object. (2) As to give money aid from the missions to theol. students and as to Erasmus plan for sending men from the missions and aiding them. As to second, Bishop Potter thinks no men should be sent by missions independent of the Presbyteries. As to first sen. says that there are many natives who back with Edwards that the Presbyterian Ch. should aid it and we ask what if we give money can we ask not to. Then men on the field sent. Potter says we ought to wait for the judgment of the Pres Assembly does not give adequate ground for action. Kolb. Let us not do anything to the detriment of such men as Erasmus for independency of any support of the Church. Potter - This is the spirit of this people already men. Heard prepared what Potter is coming to the Sem. even under discussion. Kolb. Let us get men ready for the Sem. but let boys do care for them when they reach it. Sem. Let us lay the burden on the churches. We have just men then. The Sem. is ready - the men are ready

Have you given the money? Why was it?

How can the two missions be helped to understand one another better? (1) Send a friendly letter each year with the mission minutes. (2) Repeat Landes visit. Have some Northern man come down and eliminate him for a couple of years. Have a visitor here at time of Gen. Conf. (3) as to both missions the Civil War visits and also there are vast differences between both missions &c.

Landes given for 2 yrs. to Central Brazil.

Request of West S. Paulo Mission. Carvalho Braga said to them that the S. P. Prob. was in the same condition. Joaquim Camargo a member of this Presidency - employed in a R.R. in S. Paulo. Mission has no money! But if it had why give money for three missions. When plans in Bahia as country men & why then aid more than elsewhere.

Shipping ago Joaquim Reis is only temporary in charge of the Pernambuco. - for 6 or 8 mos.

Rio Prob. request for man for Campos. Porter ago that the new made a large growth, the district of the Brazil church to guard. The fact that the Mission visited the

the Lucia character the place, and the growth by reason of the opposition & persecution; and the larger opportunity in Campas itself. The Brazilian want an American in the Pucalpa. but as. Dutchess permit for this work with Brazilian if they had the money. Bible and Christian fed. Could do nothing. Barbosa knows Jesus as all the Indians now in the field. He gets 250 Mi. the Americans in the Pucalpa. The field includes Oshocati. Campo. San José de Colorado & Perene. next group in Esperanza Bank around San José. 17 believers in Campas. The money. owned Canoe 2 new groups & divide field with Barbosa. 14 preaching places in the field - other 16 as regular preaching places as ought to be. - as places where people meet for worship. This work owned be further from Cerro Pasco than Pucalpa is developing for away out up towards the Bolivia mission.

Other new mission aries - Lopez. Mariano opaliz. two men. two women for Cerro Pasco, two for Pucalpa. 1 other in Rio Pachi

Lopez a town like Huancayo. - many people around. Round about as Centers some are

touched. - other not cut open. The man here could take Arapesco, Polewan & Parts Unias. A man at Lagos could take central Afa Cath. & Southern Parova.

Ca & Ibw. asked that such a visit be sent by Bp. & Gen. & Griffiths to Porto Praia. How that Bp. Ibw. no need there.

But Ibw. & Jadoo, and Gwa. & outposts should soon be very happily filled with their own pastors. The Mission should work for this. Then Lotin Arapesco. Other than Kabb Chanda if a new man is sent to Lagos? He say for a visit, as at Arapesco. One then at Jaguariguan; as at Ibaga. and the field wide open beyond Guaqueana with the road to Kwato Gwa when opened. Not this migratory of native pastors. In the Bulletin article long ago on Central Church. - How the idea prospered! & with Bo. Pia. - So much more advanced. But the idea has not hindered them. & here. Reading Ty say is desirable. Ibw? Ty say that the contribution to him appears in the works of the Independent Home Miss. Assn.

Consider also need of man for Rio. Clarke and Teacher want us to send a man there. Native men. Paterson &c. are subject to Alvaro. A man going there would go as a co pro bono, would have a hard time defying his position - not as an inferior but an equality to Alvaro. But urgent need for Rio.

Rich. says can't ask for all the men we want - need now Gardiner for Campos & a man for Lages.

In early years when a teacher in the Gen. Edward stood for the State Legislature as a Candidate.

Alberto Myers of Novo Friburgo a fine teacher - he was for that place that a woman minister was wanted. coached by Porter but the thing complicated. even Myers - now teaching in the Boys school as any man. If we buy a woman then Myers can each of us don't spend the money as him - as given our men. But if we do that to save overseeing the ch. Porter there. He is a better preacher & the pastor right hand man in his work in. Paterson &c that if a minister over there he would buy out the woman teacher.

But asks for two here now & for Bom Abyss.

Vogel says that graduation from the Gymnasium is required as a condition of admission to the lower or medical schools - not the pharmacy or polytechnic. Preparatory examinations can be taken for these schools. Thinks that students (i.e. ord. hear.) Abroad have had equivalent preparation but would be willing to have it given in the Gym. preparatory School

Vogel says the R.C. Schools are superior other private Brazilian, Spanish Italian are ignorant. The German French are best qualified.

Medical fees. - Porter says Dobbs pays it but not for medicines. Boyd. have £160. Others report. that they had some heavy medical bills, others had a mere. In Transp. doctor took only small fee Has to spend for drugs & medicines. Bro. Luiz says Boyd has spent 5 or 6 £ for med. fees others ant. for drugs & medicines.

Porter "9, 9, 9" is inappreciable. A strong man is needed to overshadow his pretentious swallowness and teach him humble appreciation by adopting him, not by reprimanding him.

out and there are four more figures with them on them.

Next to R.A. Stairs is an arch the first of three. In the centre the Saviour: this side the glass can show the actor in the doorway at the back of the opening. On one side a man and woman carrying children, and behind them a chapel. At one end kneeling a praying emperor in a deep blue lighter robe with a big fur American mantle hanging before it. On one side a picture of a marriage of Joseph. Above one side a long blue ribbon showing the temple of the virgin and the Annunciation. Four men go before them in evidently prayer. Then a dream classical field. Surrounded by clouds, bearing the Virgin. Underneath between the clouds is pretty lantern being crowned. She holds a book in one hand with "Lauda" on it. Behind the classical with long and very Egyptian face some Cobwebs, also crowned with coiled hair - features of the classical. A gargoyle on beside them - not crowned - I presume Melancholy.

In the robing room behind was a Nat. Bible - the Alexandrian codex from the British Museum. On the wall was a large framed sheet containing the pictures of all the Popes from St Peter to Leo XIII.

Later on the problem must come up how to deal with it. Meanwhile doing it in Camp would be appended if Bps. undertake it. Dr Lunn from Switzerland & preach to the American Colony. Those who go hard for priests act as people from the

resist the moral force of this extract for it
both as to the people.

Church of Christ is not this same position
from her. and that the ideals of home. the Vatican
as more peoples in Argentina & Mexico than in
the World. Can't go to any Roman parish when Pope
Leo & get any spiritual food from it.

People are not depending to priests. Even a cross at
them. As we come along the street some school girls
jeered at Micael who looked like a priest. Now Lucy
had a workman made that their God song. As even
the cards to dogs to her not what with the children
went however. Micael to give cross at him.

Lucy knows a priest in Mexico. He was
for the priest priest, & as horrible a hater to see
who invited him to his house - started in to prove
the infallibility of the pope - on the ground that the people
are not a man. Claimed that he being was of a

man in each ship but bypass the action at the appointed time was from Christ.

Now the Rev. Council says the people are very superficial, as the newspapers are reporting more solid for than the Argentine.

Daughter says Parisian Father, who on Sunday last was 80% of the people in this parish went to Church that they did not know how to take that. as the opposition of the people was that if a priest of power in a town was a good father, anyone for. He would do. so that they were only let in after the doctor had pronounced that there was no hope and had to prove to the prejudice so. prevalent that of hard sentiment for permanent to discard divine dress.

Mario - Afrikaan. but evangelical. has 5300 children in his schools. Says that he believes a knife on what exists & negligible it significant only. Says the teaching of Theol. is not a leading element. and also (contra Cuthbert) says that the conditions are the same as was Luther. and that instead of their being an Argentine nationality it. there is simply apparent there is no D.A. nationality. Has 80 teachers in all. head man is an (Evangelical) Roumanian and there are 6 or 8 others men from the country and the best teacher the Eng. (not). A German woman

[illegible] the Assistant [illegible] the Schools - in charge of the teaching staff. Opens meeting with prayer. Remarks about the work, and the building prepared [illegible]. The regular work as during last year. Pupils come to the native schools and go with their teachers to central mtg. place. Then pass 4 or 5 hrs at the children's service on Sunday. Also Band, carpenter shop, museum, kindergarten, &c. 40 % of children remain in a year. A short sermon after the regular work. The Mark System and Report. The Standard always specify the grade, not the present percentage but does his best. Believes that staff is worthy, able to serve and it is [illegible] in the province as well as [illegible]

Called on the Reformed Doctors. Saw Doctor Martin and Doctor Vincent - former of Kentucky, latter of Indiana. 5 of the Doctors are Americans. Most cultured people. Has a nice ten together with good coffee. Vincent took more. She was teaching with a lady whom we saw in the later part of [illegible] in Martin at first but then with us entered [illegible]

we walked to town of the 4 we took in with. when the called Vincent & Jane in. Martin said there was only 5 bishops when there appt to be 12 or 15. but up by Constantine until the 20th. The Pope had been appt the others. Regarded this ceremonies until the 21st as the start was. He had by such things in such respect. The such power as a Church here as the appointed in Eng. The Cryptic were a wide awake progressive people and not unlike in the province but in the city there. The Pope element had drifted away from the Church 8% of the 12000 in the parish count of Church. There were from 500 to 1000 protestants - country Lenton in all Cryptic to 5000000 people. In Rosario only 7 to 14000. There in no Jewish in the city I met a 2 merchants to 130000 others in the U.S. Consul to a cryptic bishop. Did not think the character of the Cryptic priests when were now about 3 out of 10 were responsible for bad conduction of the Church - the Cryptic priests here Good men - best known

Only 3 Scotch ships to come in 1813. But the great mass of the people had no business & they frequented & knew any detail preached it. Church preaching not also. most of the parts were but ag. the Italian parts Spanish they called changed and became the public parties - first event from an Church & another Spring Walker the parts were despised - and violent and brutal. Could not go at Leipzig's in Lohr' concert even on the Square. If the bodies passed a priest on the street they ran to touch him because it was bad luck. The people did not support the church, did not attend mass, were disorderly when they did and even in death would not send for priest at all or only at the last moment in an emergency. A second great need of the preaching was schools, but there were none. And so among the Jews the priest had few visits, except first, third feast day Yom. Weekly fees ordinarily 3/. Confession fees from 5/ to 20, and funerals. The people were better & respect him since he

had plenty for Schools. But then had two of their
best last - the people cannot be encouraged
by fine. so that often the gift of ministers
prevent the people from trying to set Endeavours
afoot. People cannot spend their for great purposes
but then the priests has no money for Schools.
Put up £ for masses. The need of order for many
for funerals & marriages put them in a bad light
and made them one of the most unpopular. in
Peat. he said that it was time that such
unpopular calling were together could be set aside
that Prot. Ch. has ceased from the R. Church.
The great needs of the people has no relation at
all. and the conditions were pitiful.

Vincent said that they had expressed desire to
come to Jos. Epis, that many more went to
Church now. The people had no common stock. but
were not one Company of Europe. even very
fashionable. showed the Indians and East Indians

Schools a great need but they had no friends.

Came to see the Public Book Stock which was left

In the P.O. are boys who were graduated from the Univ. of Bolivia and who could not enter a high school in the U.S. - but know quite a lot.

Hasten says that he doubts story of the alien report of Prof. in the hospitals under &c. If even there are persons of Japan at conversion. Have heard such stories from Chicago. The best hospital here under Yank auspices. After Dinner was then sort of Monday by. "What you have done has reminded me of how words of Master taught me - I was with you." "Oh!" said he. "You mean the words of our L. Sc. Do you know them?" Even evil looks has caused the hospital

went to Grant Hyers. 25 teachers - after quiz all ten. Director who speaks Eng. of this a Grant Bond. Now so many teachers have also learning to 500 pupils. Print teacher has pupils. Lester - "Obj' to the R.C. Church not a matter of any particular doctrine or dogma but to the whole influence of the Ch. on Society, down Conscience and the responsibility of the individual soul to God. The Ch steps in at every stage & draws a moral shading each for the benefit of that there is no individual power & initiative left. (2) It has made no progress but as ecclesiastic. It has crippled its own or progress & civil as the Prot. Ch has done.

Is there any hindrance for a stationary people to move forward in evangelism? Catholic

French school - two sisters - not ecclesiastic. 66 pupils - 30 boarders. Get boys from the State. Most Catholic. Is all in French just as J.D. in an English. Girls talk in their own tongue by chance than the J.J.

Ambulance on foot. Church work here. A great care

Lester says priests not much or much respected now as began but still regarded as a costly order.

The priest goes to the Asturian territories in a red coat. There being very few Jews. On the people must be known. There do 20 men

Teodoro (Don Diego) of Monica in an church here. a big chapel. People prepared in vain to the J. then took him out, turned him upside down & beat him on feet & soled him from the until he gave name. His left Monica alone with other Gentlemen friends. Not proper. Night but then fair room. to the town Cura & took her down to their convent until Indies time which not allowed to prepare for her to return. The Legend is so: Curtain there was bad J. at & carried him around in town for days.

Letter 89 did when he went to Capuchinos from Cadiz Bp of the Egyptian, afterwards Bp. of Parana, went to him then he was glad that he had come as there was many people leaving the church & he would be glad to have him back after them. if he could get land of them

Went to Ven. Jesus Engineers' school. Boys are to in J., how is. in how & medicine or how there.

Regarded the Low school as the best. The Int. Race and the Int. School here was an advantage. In deciding the Steering. In the 40" - the Int. crew set up a Int. Low became later a hydro. Later it was that the Int. Low have a Int. pound at any rate which came a valuable Factor of time. Very Int. property.

Went to Int. Regatta. - The best appointed of the Regattas. 1200 attended. 50 pigeons. Flew each 5 boys a week for 6 days. Men are the weak - but have big holidays. Two pigeons Cost about £2 per annum for keep? (In alter Int. 40) Number 2. Over a 20 or in camp. Each day of that week 30 lbs to a feeder. Flew Museum. Present pair Bird Society. Rather said that it was voluntary but that must be meant more than who had had parents. My meant is that the school Int. act after. B. says he is an adherent + that his actions + that of others is opposed to religion. He said that he [illegible] was better [illegible] a Praise.

The Spanish mind found it hard to get the people out the

because they say" En fight Peru & take the Patriotic funds and they
support the present Upstream Government. " The Indian is
here centralized. There is only the national Court. The French

No room kept such for shops for what I should. How are the boarders only. Need a year. No place for the boys to play in out weather. Nice boys. Love very much. This history class took us Edwin, Edw. VII, Queen and the great men of the first day, – & the 19th Cent. Lincoln & Shakespeare. Could like us to think was the greater Gladstone or Bismarck.

Like age Chilean people have no regard for their own lives, the country has been peaceful people. Part of the account for large death rate. Many for good soldiers. Sunday, Aug 15. Valparaiso

Lovely day again.

Story of hysterical daughter from whom he had been separated for 5 years who came on 4th room when he 18th had been left alone & said "Mother is that man ready my/fortune? Or you give that to me?"

Went to Las Palmas D.S. thro steep alleys between theatres. About 20 or 25 there & a crowd around the door. - a drunken man, 5 ragged children in a room in front, 4 of them white appeared little girls, on mother of 7 with her baby charge, a Peruvian convent, on 4 German boys baby again, pictures on walls bare or gaudy over windows a dead hope in it.

Came down to North D.S. thro streets, first saloons were free hot. Then on 3 grades, 4 or 5 or 12 or 13 cents fare. Very on the part. Men women drinking together, just treating each other round up. Employees. say saloons are open on Sunday. - as large employers asked a local athletic ground & keep a space open for their men for football on Sunday & that alone went them back but for work on Monday

We left the Chelsea like an ordinary ship but when we
were far enough to sea we put her in order for
the work. School a great affair. 1 Form a class of
large classes, four with 50 in them. The teaching going
at a tremendous rate. The ship a good one for the
work. Canadian Rowing Room above. Got us
for about $3200 pairs and about 50 or good many
needed to complete it. A good outfit. For each it was
stacked down stairs at night as pairs in
galley. The ship stayed a week a great excitement.
The other two had a crowd get at our ship and
the owners & all in Penzance began measuring up the
ship.

Then went to Weymouth. This completing 9 over
200. Until 1. of that when we came to shore were
locked & that the vessel and let any Chelsea in. Dis-
cipline went only & was stopped. Went to keep
out disorder but only the best fed Rochdale.

At 1st as an ex Opportunity more Children
Went out & older people. Good evening but the Church
dancing on Carmelo Pier.

Here yt. mtg. for men in an Church. Great thing
done there. Dr Horner translated. first like a men mtg.
at home. The Revd. made a good deal y noise. and at
last an Athenian arose with a fist, groaning & thumping on
Bible in on the L. O. Lodge.

In the evening Revds' supper. Mr and Mrs Jackson gave the
Revds here and another in the congregation. Dear common-
place Revd. Husband y Mr sat on the side in prayer
as his wife ruled. What over his feelings? I sat between
the y. men. On 8th corner as the elements were passed.
The Sup. went after this. Long as a this Moment y
Moment "when I finished. Very impressive. The prayer
very calm & quiet.

Joe was at the Youth. mtg. + said it was packed + great
noise.

Went first thing & saw the Queen when she went to open work. of the Cable Hospital where we have seen people who could be drawn up. Dreamt of the eldest boy, and a boy in Ec. Popular. now a salary £1200 year & a share in profits which doubles this. He rides boy here. His French hospital which charges £1 a room a day. Great place of Pilgrimage just before it. Then the best residence hire - the Eglise we let the Germans on Sunday up on it. How let so good a reputation in business as Eg. The Egyptian part of French carpet in smoking watches in pictures.

Then crossed to Shepherds where hire. Found all home back of it: the pictures between Cats & Dogs. yet it. The new Bows re-erected - yes stuck at 15 now over 240. Yet Sq. here. Our real estate 15-7, expected about £3 a 40 Avenue. Our house boy who was picked up off the street where he had slept for 5 years in a Cart. He cant even stand off so he has to have. Ever food from poor who was Irish Dreamer. Now boy in the house. Mr. J. & Kearsin handed it. Called

then fancy. Was warranted.

Then went to the County. Copied Frenchwick's epitaph. Saw Allen's grave. - in the church on one side of the communion. A great many of them had fallen down in the floor but the rest stopped short on each side of them. Also clear of the rest of the floor. Pews which stopped off - The pew of Hough: the vicar's warrant pew. The great West window almost at right angles to what was before. Down near a Gardner died at age of 18 in way to Antwerp Concordia Indiscreta - born 1861 son of the Rev Allen Gardner of Hota. - Gardner of Allen?

Then to the County. Near the name over Eyre which with Gavin put over. Then forgave the Whippi but was the most fanatical with. Hall number of persons the room which to a vs Abbey?

Then to Newark. Bella Vista - Down by. Saw Trinity Ch. Big opened for Xmas - Good. Waved Ed Cross to Christ. Hoop. Had an awful job this time to rented for eyes to buy it. In on the Pinchbeck a house recently for Linsey pond. Just went to Co in Lincs

Cuy. with Martinez ~~Martinez~~ Herrera - Lucha y Vera.

Condition much improved since leaving outbreak of th. has been raised. Has come down. Still many people are coming in. People less fanatical now. Has not certain than there was. addition of th. has been growing prosperity - could progressive. Better substantial citizenship. Papal Legate known here. much prejudice removed by the school. Attendance at Rc. churches less than it was. - Went to th mass as they did. Why? th people find that Catholic Ch. is not modern - that church is as it was that it can't meet needs and are growing irreligious. th priests say, this that we are doing wrong to church the moment come to speak more as the Pope. formerly had to combat fanaticism - now indifference. They think better more formal as th people now do than when open to reason. An entire people from birth down is ours that are best members as from the corporate, earnest, Christ, distinguished class in the Rc. church. An Ch. from the middle ordinary class and this class is mainly indifferent & sceptical. th people here are great for dancing & music. Cuy Prado - a forest - in which goes the

trend and is guilty of Re patronage: to murder
art awaken, occasion &c. In Courts they have
their musicians. In Vacy. the R.C. has & Chilenos
the Pope & the Re church. - print better on the Pope
work day - but my parents act as Bot. the
Re Ch is also guilty has some salvation have to
read them. & Chilenos the most hopeful among workmen.
In the new country the R.C. as guilty as any Bill to.
But even the real market has they have the Protestant -
Anglican - the Church is the Lords, the future theory.
Mexico have no print - is to ache in the public school
a bad man, miracal. - & the common, also drunkenness
generally the day - the Cath. would expect that the priests
how man to be saved as them > per them, but the
Pers man dies per better > is Pers. Negro of
parents Religion but many are Romanists, Protestants. The Ba-
ens have taught in public schools of print are accurate.

At last with Miss Beadon, I can't write to Miss Beadon
doesn't care whether it is in the sunshine or not. But
perhaps she has not right apprehension from, her work suggests
a misapprehension of her character. Happy in it that feel some
one cannot be found who cannot do it with more power
for. She is not bitter & her last gives it one a touches
It is also retrospective. She doubts me. Whether she
ought to return that she admits that she is happier
& that she can do more here & at home. But does not
think that being content & working others happy under. contra-
dict. To practice is enough. Country power not her name
from she has been more than when she came out. She
found here much our spiritual life depends on our
surroundings, thinks that her deepened & expanded at
home. having no deepening earth in more weeds & less
out. Perhaps she is right she did it fatal damage & the
way & ill feeling from him one, delegate here, even
the practice of teachers' meeting. I asked her if I had
written upon work I could teach with success
without work to her

Mrs Smith says that this is a true picture here. Got to know women expand their lives but can't risk personal prosperity. Also thinks that marriage should put them first & breast above all equals. Father Mc Kenna wants to open to the people.

Santiago has two churches, one rented chapel. 75 pop hse. One rented room 15 pop hse. The Holy Trinity ch = Avenida Brazil. - with $35000 The rent. on 9 D. for these was 35 000, of which 3000 went to Vice del Rm, 17500 to Av. Brazil and the rest 4500 to Av. Matta The ch. of the Redeemer = Aven. Matta - with 48000 =, being the rent 7500. More rent to more done - as this present structure is inadequate, size not to exceed. But have seven twins. but not twins seven babies.
Jamie has now two tutors & Roy whom he has three

has to do but twins should do this. But I wish if effects
of pigmeus have been simply superintended. If not why
more? Jamie admits not Nature needed to do
carpenter work. How to try to act at different classes.
Has nature aimed to a certain proportion work among the
artisan class. Doesn't seem how to reach upper classes
but perhaps a man who felt to specially called to this work
might do it. Could it then the whole nature act of
Jupiter with over a kind glow missionary. Our present
people are from the lower better artisan class, not many
from the tradesman class.

Besides the ch. ed. are two others, - one in the
Newton chapel - Jota Bicho - 30 to 50 and another
of a few other. and 30 - 40 in a private house.

In Kent. we have five preaching places & church
other cottage prayer mtgs. - 2 churches, Jotabicho

and a rented house when we pay the 15s per mo.

We ought to buy Jota Beche from Keiton for 10000 or any fair price.

On the indebtedness of the two churches we pay 8% plus 1% amortization, the debt being extinguished in 30 years but we can pay at any time & pay off the debt. By paying bonds, the amt. to be pd. back in annuities each year.

Question as to membership of women. Some want to
come to missionary mtg. But on actual issue did
not wish women voters because it feared that they
would not act adequately, they thus untrue, hear
all the discussion. Things even said for this and
then feel that they should not come in & they could not
keep secrets. Smith says that it was only said that
they could not be members of the Corp. Grove. Which is
incorporated not only to hold property but also to carry
on missionary school work & circulate the Bible. Women
cannot be members of this. Bonner, Of. Gamin
say things women do not want to be members with
free responsibility. Br. says this says was heard by a
man that some of the women could not keep quiet.
There was some ground for the criticism that private
matters were spread outside. Bonner says no woman
wants to be a full member & if ex. members they
could come in, but says should not be out of the mis
sion. Of. says the feeling can of be dispelled even the

women are full members, & use their privileges when they wish to do so. But the women are by the Kaffir members. Kaffir has a right to give them right to vote & exch. exp. paid to the Mtg.

2. Evangelization.

"Is it in accord what it ought to be. Look at the unoccupied villages & towns. "Is it an efficient men when in use as it ought to be. At the men met on present resources.

Bonner. We have never had enough resources but also we have not seen our duty and felt the burden of Lost souls. Need. Have you brought us. They went into the fields where the doors are for us.

Mf. But we can't do much without evident workers. Enrico & other places visited regularly but no footage

Weber. All idea was to get groups in the villages & towns and visit them. Nothing came of it. Centralization is the right policy. Have a few strong people in one center working there.

Garnier. If we can get families a certain let us visit them. Can it do but not without families Resident workers indispensable.

Speir. But if we can't do visiting without a Resident worker then it is hopeless - for us no Christian can provide means for such a house.

Spring. But we have places other than the families where we ought to follow up. Dispensaries Hospitals. I meant by regularity - weekly visits for a day each.

Garnier. My hobby coffee stage work visiting in

Leeds. We need the sanctification of the place & the men - If we did this we cannot but have men like Duncan &c.

Garnier. The cause is that we have missing. Bring men pastoral work. Native men ought to be doing visiting work too.

Mich. doubts the value of house visitation - Quotes the Adventists as having a bad reputation for such visiting. But others said - not the method

but the men.

Br. Francis mentioned Wight. He sent men out to preach a sermon which he taught them and did this in many centers - all over the city. Sent 2 & 2.

Garvin. How was Mr. Scates her gift, go about as evangelist & training of pastors & workers &.

Mf. We could send her to Station and at once but not to Dept. a Evangelist.

Mrs. outlines Bahia work.

Mf. The country people here are open to the Gospel here & there but it isn't safe for a woman to go the owners of ranches are not favorable. Priest have said shots down on us.

Garvin. Yes & I can do it. I would be glad to try it if there were time

Bowen. Not enough money. Less in 1904 than less years before

Mrs. Mr. That a question of money. It is a matter of redistribution.

Browning. He knew in 99 a class of boys who were sent up to an Exc. Popular or go to an grammar sch afterwards. Many scholarships were open to sch. but they seemed as a rule drawn. In school and home progress. Little choice of Sch.

Edward had not thought it was time to come that parents should learn. Before that only a little work & progress. Now know, work. Uphill. Good use of E.B. Had we had a big hospital at once. Chapel was big enough for them. Use of boarding House got out for Sunday. No juniors like here. In Elem. teachers do work for religious work.

Browning. - Juniors have no chance but we are hoping the higher. Then boys from six to seven progress. Use in lightening the station. Question as to taking Central-Ais. Great pt Powers say. Feel that it can do it cheaper by aiding the voluntary. Schools. The day boys pay £12 a year. Our Cairo principals (1) has by far the largest school and a large prep. Foster. The schools are a detriment of the school in many cases kept principal. They are a complete up., but element attractive. Not like the country.

Br. Part of our art lady. Boy grandmother boy of Grammar Car of Valley. Who sent this you teach religion? "Is. Can teach the Bible" he says. "Even that is all right I want them to have the Bible. But don't teach any religion." The people understand by religion the Jewish teaching

this year more than ever people have gone off not having boys because of Prot.-schools.

Here I asked about factory of bags how could own land. Can't see use this inj. to get lots and for long. Cost as the same as in the village.

As to school: (1) Morning prayers. (2) Land. School of 40 boys on land. (3) Price. £1 - "Tobby pays as ideal a dress to make my boy like his n." (4) Number might not get boys. Eleven speaks (5) of Upper dress here 2 years but Dirty a cub. Time doesn't appeal to have the best dress only on town. (6) The preparatory dept. which includes almost all the day people has a charge of 1. to that 50 boys in boy dept. have 2 charges.

As prop. is 65 × 65 met. = 4050 sq. met. @ 25- per sq. m. = $102000. for land alone better have 400 prop = 20000 sq. met @ £3.80. = $76000. By thinks can prevent prop. could be sold for £30000 (the. 10000 ± mortgage). The Govt is looking for a place for school of Mines.

The centre of population is South of Port. The people there. Especially out a little to S. of Port.

Garcia thinks that we would get more good for the future of Chile from an industrial school for brothers of the middle class people than from the L.S. The L.S. is not the highest order but it moves down one fathom in the order. and the future of the country is to be in the hands of the common people > aristocracy.

Q. The upper class is fairly strong. The future is in the hands of a middle class which is very little excellence.

Costa. The upper class is too fossilized. to lead anything and none of them send boys to our school. It is not the rich class here.

Br. I don't remember any boy left an account factory is doing here in this to cause. Or

boys or from other middle class.

Gamin. But the future of Christ is in the hands of lower middle class.

Br. We can use the lines of influence in the country where boys have gone as base from. The base could be many.

4 Church organizations (1) Officers. (2) Activities. (3) Boys support. (4) Use as a voluntary evang. force.

Boomer. Organize whole ch. under elders, all active members of them - on modified principle of class system of Meth. Get together the select men of the ch. & train them - target a little group on for 2 years how to pray - an area as to teach the personal work. One little ch. whose people united by ideal of how a personal work can be made a real power. Br Christian began with people who knew nothing & got discouraged but boring his stolen people who worked & loved for them selves. Did so also in Br. Redeemer.

Gamin. Subject of great value & practical importance by Boomer in Avenue Matter. Give us teachers room at a loss what to do. How to train Sabbath

Problem as to civil marriage. In some places the Officer makes it difficult to put the license - to act in the office. When he does it outside he can charge an extra fee for it. Poor people can't even again & again wait. In Eng. Ten were 14 civilly remained people. But Genl. Eng the Number is down to a point of fact in dealing with the Office of civil Registry.

utory lovers. The law of Christ does not allow
divorce at all with power of remarriage.
& I say that other embarrassments arise we can
not take into Ch. any as taught. We must con-
form with the civil law in all cases and we must
not take in any who have two wives or two husbands.

Roman priest — an Ex of Native Christ who
lived together until at home it. When they came to
be married, found this out & had to separate.

Question can when a man & woman were civilly
married. Exp was fornication & legal. How had not
been fornication. Took a woman - then others by wife
children. Can be civilly married to her. Shall we
take him into Ch.? Yes. How is that after case of

In the Argentine one Chilean gets us a paper called El Correo Evangelico - I sent it to P O in Chile - passing over S.A. lands. Comes for us sent to our P.O. This interests the men greatly. So the heaven evenings. So also the children prayer. Two friendly children in sent for pour Spain.

Copa, Kramer say that the Spirit is with Friend here in the north. Or great despair. in the Administ. They are not all who. They have caused the with drawal of old powers from us. By their conduct in carrying merchandise, even liquors with the Mission and by lowering their powers. In Iquique A.A. has cancelled etc. Kramer said this meant a loss of 2000 a year. in a few years worth that

They each only one paper in earlier than Mark! Mark says it is twice as large as Mark. Our better papers cost $5 Chilean $2.25. Copa says it is an expense Chileans who know its value but not for children with whom we want to use it as a propaganda. Want more tracts. Here in North the people can read them - common too

Recent from Scotland, more from Norwood & more from the Baptist. The B. & F. B. S. has two agencies - one at Exeter, one at Ipswich. The S.P.C.K. has none here & in the East! The Bd. of B. Does your Eng. or Welsh boy ride out with his father check? What can the children of such parents be. - no religion.

Eyes see how bad effects here. Sunday Trains in the Afternoon when there is not a S.S. or many to whom can read. But even among Christians there is little real earnest inner study of the Bible. Very few of the Christians have family worship. But there are meetings every day & people there that could take the place of family worship - & a good plan - except Ch. are, but no central-places.

Sept. 19. Sunday

Last day on the "Loa". Left Mollendo Sept. 10, touched Iquique 11th. Pisco. Cerro Azul. 12th. Reached Callao, morning 13th. Left Callao at 9 1X th. touched Solomony, 15th. Payta, 16th. Reached Panama 20th.

The fiercest denunciations of the R.C. church we have heard were not from Protestants but from a botanist who was a R.C. and from a German banker from Lima. I asked Carter if he knew of Protestant schools that could be found. He said he knew a respectable widow with two daughters in Lima. Had two rooms to rent. A high ecclesiastic took them for a mad house by reasoning to stay with the daughters. They had to take a revolver to bed with them, then to force the priests to give up the rooms that they were drenched from. He spoke and the men came with axes. He was an illustration of the devil. "I am a bit of a radical". he said. "but I believe in God and the Devil in the Cause of D.A." I told him that Am. said used the name to Chinese as Yesu not to R.C. "Oh I see". but the Chinese

also and the Indians have taken the Rc law and for they are good people. The worst moral people in B.C. But Cross Law. Why don't the Govt. instead of their Court Interpreter here; that is the thing to do. But then Superintendent. That is the cause what Governor Letts quite know to treat the priests. I know of cases when it has the little girls to say about and the priests are better with the Indians."

Archie Dunn Rock of a priest one a The Potawatomi Nation who came here & can't find for him to live his dignity. The robe never Known in Court. The Judge dismissed the case - Cost to the Dunn. Big crowd out to greet. All along the road people
turn out to wait to us. Kept us busy saluting & returning

Then gradual climbed a steep mt. & looked down from Virgil on it & the Eucalypt valley.

Then down a steep mt. past the cottage an American had had a Coffee plantation and up another hill. Here things & shapes cut & fly. Oh such wonderful trees. A great range of colour hill valleys and the trees & mists beyond ever it is Bogota. I think mem. gets very lovely. Clouds above but sunlight through them here & there. All over beauty & joy

Then it rained. Then, then we came to the town.

We came down into the Vallen valley. Sugar cane. The ruins of a great fortress.

The road angel. We had a Persian. Curse for then you can't get away from the man made road. Then mt. rain pouring down it is. The town is picturesque & dirty.

Candia wanders around. Does not read his letters. Does not work on people. Dog ought to have been shot in Crete or Violetta. Cat ought to have been shot in Candia and to be shot now. Then he would be two years! And yet he has gained through the storm. Then is Violetta & spent his honeymoon - has come & gone yesterday but we could not see him. Has planned for us today. Last Sunday in Barg. there were an opposition to the funeral

The opposition is to the foreign priests & the Catholicism. A great

have lost their power more in here. A great deal of bitter
opposition to the Church. The cause of last Sunday's outbreak
was the desire of the students to have an excursion organized by

opposed. The inauguration of the Ateneo was last Sunday

three services & those catholic do count them as all them
more than one. Consider by the 12 noon at the Cathedral

average more than 200 = 3000 out of 100000. So there
only at most 3 per cent to make a percentage. Of course a

Robertson's book on Romanism began with Gregory. "In their history one could find no, never denied the authority of the Papal temporal power, for as long as that power existed in Italy an object lesson of the degradation to which a Christian Church reduces a country or a people."

Mrs. Lee & Mrs. Condon had both women say to them that they wished their husbands to become Prot. for then they would be more faithful & kind as husbands.

Condon says women as good Papists as men would become Prot. if they were not required to give up prayers to the Virgin

Lt. Maldmoto - brother of Jimmy - formerly sent to Japan a young Japanese Prot. named to Columbian R.C. girl. Dr. Ing. performed the ceremony - not by order of the bishop. Condon then. Maldmoto said to him "What a blessing it would be to our country if there were a number of men here as humane as you and that young man are."

Oct 7 Mission Conf.

1. What are the needs & possibilities of the work now?

Candor. The great weakness of our work has been the inadequacy of living work. The object offered to the people. Need to have more time devoted to teaching methods. Both large & small. Believe we can do this if we don't give our time to much to other things. Of best work has been in personal touch & best taken with a few. Better than large meetings. Can't hope to give 2 years to the Boys School (18 now, then gain after teacher a year and 1/2) Missionary has to take charge of the schools because native teachers cannot be trusted. I would urge enlargement of appropriation for living & itinerating work. for use of the present force. We could easily spend twice that and large methods. But what appears around the missionary? Standard of Candor. (No adequate reason for not having them) Are to address workers. - Reasons for living & visit neighborhood to that the unit. needed for more frequent communion spread for this work. Cant rent a dwelling house for less than $500 gold. Cost for new living. would be different $500 a year and a good body. for the place. $500 would give a house with more than 500 feet a year

Mrs. Condon. Had other teachers for other work. Came on to visit among women. Haven't seen the girls already for a long time. Miss Riley did great work for the Nat. The present proportion Indian needs no one but [illegible] in June 1911 we can leave it with any one. The Indian ought known & be kept. In 1905 we had 158 pupils the school crowded. No room even then. Bright parents have now raised fair [illegible] school. With more American teachers we could do more. But the Dawes Commission & the Indian a better native teacher than we have had. A

As to Indian the trades & pupils in efficient but teachers a trades & Indian & center. Boys school trades now completed. - agent not to be appointed for Eng. and Religion. Doesn't desire that the school give up but I must complete trades but Cattle accident has boys learn but not skilled. The school can't run not grow as now financially. Est. $3500 can't do for repairs. Has to learn school $40 a $45 a mo. to make it go. Get Cant. School needs [illegible]

Girls have to have a bro. next year. Teacher cries and runs. Pays $1 comm. twice in year - would ask for teacher to go a run. Girls have $1/2 qui by boarding dept. Can collect money for it. Master a good man gets $5 for 5 hrs. a day. Evening school - 2 yrs 1 hour. Women over 12 $ between. Boys ascend if many collected. In Bogota are to marry. coach - rent for a Club. have which is not merely a club in one of the schools. but Cadets, Under had been afraid from schools, then influence was excellent. need such a base for social influence among the working people of the church. Work done for the crowds in the Market. They don't come to the ch. or if they do they don't understand sermon or the count family. like an industrial (mission) among them - teach them how to live - sermon, Brethe. sleeping rooms &c. assembly room &c; teaching classes Cath. doing only matters for their people. They are evening people who come in for 3 days a week. Need together as Cath in common rooms &c. Medellin Great need there. No people - a young there - must come as to come, coach

there are 17 faithful members there who have met & read
that have more than 1 also met it with them. This
a circuit around Giridih, Kendulma, Hazaribagh &c.
This would take 3 mos or a man could go around
some train a year. This would greatly feed their
Bengali church. Giridih the doorway to the Santal
Parganas - a good strong people. Native workers
depends on whether one can develop such. We have
gone taught by us. Some teachers for us but few
we have for work. If we had country such as could
see them in Deoghar. There is more yet but there are two
things where we should look forward to being in the work.
Many others are pretty good but complicated with illegiti-
mate children. Need money for training such men.
but we could train them ourselves in Communist Board
with cost only of board & doctor with us. Great weak-
ness has been the want of continuity - the few years
the most time they have stayed. and hence the Christian
has not had the advantage of consistent instruction &
encouragement as in other missions like Chris-
tian

Lee. Need a young woman to be associated with Miss Scott and do home visitation. People very accessible. Garden Cage room to that here. Need one family to do exclusively evangelistic work in outside towns. Don't believe there is any country where are give better results than our field. Have a good native working class which is raising up good workers. In Common & Bohemian a Contagious. Call had 300 known. Mr. Lee would pay salary of a P. W. if applied for them. Just need in Bohemia to know change of wrong. work and to train native workers. Want the 3 single women & 3 married families - but would give the 30 to Methodist & Presbyterians. Miss. reference. $300 would apply for a man & wife but know need would be $300. Ochsah. Money for teachers & to know how long what a native can do on small. Bl. gives nothing to Boys School. Girls School gets $200 a $250 Bogota Girls School gets $500 and $50 for repairs. The Bar teachers cost $5 and 30 per mo. quar. In Barq. lady teachers native get from $25 & in Cyprus ord. pays their own fare 1/2 time (?). Alm. get $8 & $10 each quarter. they pay board. Seminary Barq. Girls school about 25. a month.

Candor In Honda & Manacta are opportunities. Mr. H. Lucas and others say that we could have a school which would soon be very profitable. This river rises near Manacta the best place in this district in the interior. Apparently we are not touching even opportunities here in Bogotá - The large cities are not being reached. There is the Commercial class not done. Have now two schools, Chardon Vale, Mrs. Harding evening class. Weekly cottage meetings. Not well attended and give not even any public invitation to them. Annual payment come to each meeting. Pamphlets printed themselves

Not women. One with 5 boys and baby wife to stay with a 125 lb. load on her back. A poor woman Cales wife how awful being to carry what the boys the first on.

Colombians are not proselytes. They do not take pride in their own country. Great contemplating of visit to U.S. in 1886. Now we want to go to Europe. Even Minister says that he even knows like Bogotanos (even the B. de Hon.) He had a desire to go to Europe - an even stronger desire than they had.

Williams. We have no people who are kind enough. A few good people but not many. But in political matters than empirical. We think workers would assist also the workers to come but not franciscan public.

Shaw are there many mines. Just to know about just? Nothing a great deal of friend of the work urgent that we don't send miners here unless they have the land. For in heavy it they get a sort of character which they find it hard to get out of. Williams says that he thinks he agrees with us. But that Bogatan is very friendly over the language.

Mrs. Cowden would like to see many children out here but Cowden doesn't.

2. General attitude & view. Shaw we just hard on a Shaw to drive forward.

Mrs. Cowden. I am willing to back on. I should like to see it go forward but I don't know how to plan for it. I have seen part that people can be counted.

Cowden. I don't want us work given up. I am not give up readiness to sustain the work. I want to see it developed. But how can we get people who are stay along the work. Shaw are

people growing cross are discontented & who oppose from the Gospel.

Lee. had the pleasure of a visit in my mind Thos. Dear Edwards in town. on to Cambridge new people to other PSS. - during can expect to be cast to visit the 7. people here. The anxiety is for us to the circle sent to those who may travel on foot in progress. Thos drawing & Grace & Hunt. Dont retreat before we have had a battle.

Wilcannia. To abandon the field based to cowardice. But the town keeping along in deadening.

Note. 1. Brighter conditions here than in N.S. 2. Great talent idea of a circle. 3. Heart. need grace not bad. Of.

AB Soc. ought to have circle up here. B. & F. Gill in town 25 a year & 1/2 order and order handy expenses.

Not responsible office people at Victoria to get literature Papers except those are among first books a prepare. Read accounts people in this way. even if the people do not read.

Boys School. Small boys are taught Bible stories by the teacher. The 2d afternoon Mr. Creagh gives the instruction. has been too long. - four times a circle for more than 2 hours. In Papua - 3 hours closer a circle. - 2 Circles. Epistles &

Girls School. Mrs Carden has again a interested daytch
has been a convert in the Gospels. Have no catechisms. Can't
get them. Mrs Carden wrote to Mr Day for them before he
left. Never came. Then after Mrs. C. Came out Mrs. Carden wrote
to ask why the books came. Have had no answer to this letter.
Native teachers have taught their catechisms. Have a proper sup.
Visitors yet. - an upper Englands education.. A weekly Conference
on Thursday. Usually 15 or 18 present Have had some personal
communion but not with all.

Does the Endangerment of our Schools depend on sup. Legislation
our Central! Carden says. in part. - ecclesiastical & social
opposition as well Central. Opposition as we are Con-
verted we die all that exist to have in making our School
good in manners. Getting bad teachers & educating the
School.

Civil marriage. The Rc. Church requires that before a civil
marriage is pronounced by the laws of the land, the parties should
have an other marriage than the Church marriage, even
if one party is a Roman Catholic. There is a civil marriage law
in Col which does not require it but admits it. But
the Concordat modifies this. - by putting the marriage of

Cath. under the Church. It is law the first boys born Church who marry Catholics. Girls have not courage to defy to parents. If you want a Prot. to want marry you Church marriage takes precedence & civil marriage if a man married civilly & then later contracted a Cath. marriage it would annul the civil act, - tho the children and claim inheritance if the civil marriage must be proved Clergy had to work two then a few months to get his marriage annuls - tho little to choose esp one Prot.

As to illegitimacy - two people can't marry. The church makes it cost too much. 40 or 50 £ is what in Colombia but many people can live together that is married. A Cath woman came to Mr. Combe that he was married & a woman whom he couldn't get divorced & was for first wedding & 10 years. Could marry but couldn't get married.

Heard of women the strain here. Not confined to mining-common but to all. Never an Am. mistress esp two wives could able to stay and be well. Have been a few women who had no morning sickness - but most often have had [illegible] sickness.

Oct. 8 Bogata. / en rute to Honda.

At American minister's dinner last night, to Mr. Northcote. Harding of the Times told that the Queen did run the country. Handing out that the man with keen dealer on the boat up the Magdalena with two females who got free / began touting about what kind pronouncements she liked to have relation with. She said she preferred young girls right at first experience. Other said she liked older women. Northcote said on part of the table now was upset & the Chargé put contents of the soup & to have a spoiled head on it. There are Cubian affairs in charge of the best representative they have resigned rather than get tangled up in such politics.

Oct 11.

Left Honda at 9.30

On board from the Colombian minister to the Vatican a big, stoop shouldered man, with a heavy suit of green ended velveteen including doubly thick collar + waist coat, black derby + heavy glasses - while the heat is sweltering. Smokes a great deal. Likes cats who keeps the hairs off his coat is the kind green who are so a theistic looking. Carries in his mouth metal tooth brush as big carpenters tool pencil stuck upright in his button hole. Cadet. What sense can a man have by appearance but his nation who hasn't sense enough to dress himself.

Spent the night at Nare where we took on wood. The long reloys on the west bank just coming where a river comes in.

Oct. 12. Left Nare at 5.30 and ran one day. Past Puerto Wilches and tied up for the night at Canaletal about 7.30 P.M. Where the mosquitoes were frightful but did not bother us in my net.

Oct. 13. Left Canaletal at about 6 and ran one day and taking on wood in the morning ran on until 2 PM when we came to reach Barrancabermeja where Buttigieg lives.

Oct. 14. Left Barrancabermeja after a heavy rain about 5.30 and ran on down the river. Very hard to get more than a point straight when the river runs north - ly.

The Priest who teached with her is named Dame. Polo C
She gave her a most to read dealing with Hindu. moral
precepts entitled "La Palabra del Buen Pastido". A chapter on
Celibacy in which the friendly attacks it - declares that the priests
do not think women can be saved but only on the ele-
ments of pleasure. Priests who get husbands &
come over their audiences with their arms, gently pressing by
waves with which the priests have made pregnant, and of
Confessing situations & knowing more about abortions than
the medical books. Many priests of women or impurity &
nothing more than priests. The only how the priests become in-
clined inclination. It is indecorous, he says, to praise the R.C.
Church for having imposed the celebrate of women. Their con-
fession has imposed but it has been done by artful forces
artificial the Church, except it which would mean consent that a
lie is truth. The advent that the Ch. has evaded the
obligation of the Decalogue, has been at the bottom of all
the immoralities, has multiplied crimes, has increased natural
evils, & perhaps the best sentiments of men. Changes that the
priests are governed entirely by money and that priests & legis-
lators are the Spirit of the Institutions.

Mantz under test - at end "It is a terrible thing to be
blind we do not wish to be but in any case it is better
to be dead than to be blind." The first part is remarkable that
at 78 first attack he knew personally any one was gone.
